IL MATERIALE E LA TECNOLOGIA / THE PRODUCT AND THE TECHNOLOGY

Le lastre in gres porcellanato tecnico “Zero.6” sono prodotte con un’innovativa tecnologia “a colorazione di pigmenti compenetranti”. Le venature del marmo vengono digitalizzate direttamente su una base di impasto in porcellanato bianco con complessi metallici coloranti che penetrano per circa 3-6 decimi di millimetro nell’impasto, divenendo parte integrante della materia. A differenza delle tecnologie standard, il materiale non necessita di una successiva applicazione di cristallina trasparente per la protezione della venatura disegnata. La colorazione delle venature integrata nel porcellanato bianco permette la levigatura della superficie stessa mantenendo inalterate tutte le caratteristiche tecniche di durezza superficiale e di resistenza al calpestio proprie dei Gres porcellanati tecnici. Inoltre dal punto di vista estetico, la diffusione del colore nella massa della lastra crea un effetto materico di realismo e di definizione tipici dei marmi naturali.

The technical gres porcelain “Zero.6” slabs are produced with the unique technology of “penetrating pigments colours”. The marble’s veins are digitally ingrained directly inside a white porcelain body with colouring metal complexes which penetrate inside the body of the tile for 3-6 tenths of a millimetre, becoming part of the matter itself. Unlike in standard technologies, “Zero.6” doesn’t need a further application of glaze on top of the surface for the protection of the design and for this reason the surface can be directly polished. Veins and design belong to the body of the tile and the final result is to obtain the same surface hardness and the same scratching resistance of the unglazed technical porcelains. Furthermore, the colour spread inside the slab’s body produces a realistic and well refined aesthetical effect typical of the real natural marbles.

POSA E PULIZIA

Caratteristica di “Zero.6” è che la superficie del materiale è completamente greificata, quindi composta da materiale simile al vetro e come tale va considerata per quanto riguarda posa e pulizia. Il posatore deve verificare prima dell’installazione la compatibilità di stucchi e fughe con il prodotto utilizzato. È necessario attenersi scrupolosamente alle istruzioni fornite dai produttori di fuganti, rispettando i tempi di posa e soprattutto di pulizia.

PULIZIA INZIALE

La pulizia iniziale dopo la posa è fondamentale; occorre rimuovere qualsiasi sporco derivante da residui di stucco, colla, cemento o calce. Non utilizzare mai strumenti meccanici per la prima pulizia: la rimozione dei residui di stucco e colla va effettuata chimicamente. La pulizia è a carico del posatore prima della consegna e dell’utilizzo finale del pavimento. Seguire le indicazioni del produttore dello stucco per quanto riguarda tempistiche e tipologie di detergenti da utilizzare.

Una volta trascorsi i tempi necessari per l’indurimento dello stucco, rimuovere bene dal pavimento eventuali residui solidi poi lavare con abbondante acqua pulita utilizzando detergenti appropriati. (es. Fila Detertek, o Fila PS87). Testare preventivamente il detergente su una piastrella non posata o in posizione nascosta prima dell’uso poi procedere al lavaggio distribuendo uniformemente la soluzione diluita utilizzando un normale straccio lavapavimenti e comunque utilizzando sempre strumenti morbidi. Risciacquare accuratamente con acqua calda e pulita. Se la pulizia iniziale non è stata fatta correttamente, ripetere l’operazione.

PULIZIA ORDINARIA

Per la pulizia quotidiana è sufficiente rimuovere lo sporco con un panno in microfibra e lavare la superficie con il detergente neutro (es. Fila Cleaner) diluito in acqua come indicato dal produttore. “Settecento” declina ogni responsabilità per alterazioni superficiali che possano avvenire sul pavimento se questo viene pulito con procedimenti meccanici e/o con prodotti non idonei e non vengono rispettate le suddette indicazioni di installazione, pulizia e manutenzione. Evitare l’utilizzo di prodotti eccessivamente acidi o eccessivamente basici e di spugne o stracci abrasivi. È sconsigliato l’utilizzo di lucidatrici e di cere lucidanti. Possono invece essere utilizzati macchinari lava pavimenti ad acqua e/o a vapore sempre e solo in abbinamento a detergenti neutri.

NOTE: Come specificato dalla norma UNI 11493.2013 paragrafo 5.2.2 : “l’esame visivo della piastrellatura deve essere effettuato da una distanza minima di 1,5 m ad altezza d’uomo. Non è consentita l’ illuminazione in luce radente. Gli effetti superficiali non rilevabili in queste condizioni non sono da considerare come “difetti”. La manifattura di questo prodotto è sofisticata, realizzata anche attraverso fasi produttive da ritenersi “artigianali” e, come tale, può avere imperfezioni e puntinature superficiali che lo rendono unico. Nel caso fosse indispensabile realizzare un taglio o foro per wc, si consiglia di utilizzare utensili diamantati proteggendo la superficie da polvere e/o residui con nastro di carta e rimuovendolo solo a operazione finita. Tale operazione si ritiene fondamentale per proteggere la lastra da graffi e sbecature.

AVVERTENZE PER TRASPORTO, MOVIMENTAZIONE, STOCCAGGIO DEL MATERIALE.

Dedichiamo una particolare attenzione agli imballi dei nostri materiali per ridurre al massimo qualsiasi rischio di rottura dovuta al trasporto. Il nostro imballaggio di legno sostiene il peso di eventuali pallet (sempre “Settecento”) sovrapposti. È importante sovrapporre soltanto imballi della stessa tipologia, e non pallett di formati diversi (es. Euro pallett sopra i nostri imballaggi). Durante il trasporto e lo stoccaggio alcune attenzioni particolari sono suggerite: utilizzare sempre casse piane e stabili assicurando le lastre per evitarne lo scivolamento. Nelle operazioni di carico e scarico evitare che le lastre scorrano l’una sull’altra; sollevarle e movimentarle con gli strumenti ed il personale appositi (es. ventose). Una posizione errata o un luogo non idoneo durante l’immagazzinamento possono generare rotture, sbecature, graffi o segni superficiali a volte permanenti. È importante immagazzinare il materiale in locali chiusi che garantiscano condizioni climatiche normali.

“Settecento” non si assume nessuna responsabilità per danni e/o rotture causati al materiale da errate manovre di carico o scarico, da movimentazioni non autorizzate o da eventi accidentali di qualsiasi tipo e in qualsiasi luogo essi possano accadere al di là dei suoi depositi.

INSTALLATION AND CLEANING INSTRUCTIONS

Characteristic of “Zero.6” is that the surface of the material is fully vitrified and it has to be considered like glass regarding installation and cleaning. Installer has to verify before installation, that grouts and fillers are the ones suggested and suitable for the product used. It is strictly necessary to follow instructions provided by grouting material manufacturers also concerning installations times and cleaning procedures.

CLEANING AFTER GROUTING

The first cleaning after grouting is the most important one; it is necessary for removing all residual dirty, grout, cement and glue. Never use mechanic tools for the first cleaning; removal of residues from grout and glue is a chemical process. The installer carries out the cleaning before the job is completed and the floor used. As far as timing and detergents to be used, follow instructions of the grout manufacturer.

After waiting for the necessary time in order to set the cement grout, possible dirt and other residual have to be first removed then floor has to be washed with cleaned water diluted with proper detergents (i.e. Fila Detertek or Fila PS87). A first test with the detergent has to be made on a spare tile or on a hidden part of the floor; then proceed with the wash distributing uniformly the moisture and using a common mop or in any case soft tools. Rinse properly with warm and cleaned water. If necessary, repeat the same operations until to obtain a proper clean.

DAILY CLEANING

For daily maintenance, it is suggested to remove dust with a microfiber cloth and wash the surface with a neutral detergent (i.e. Fila Cleaner) diluted in water as indicated by the producer. “Settecento” is not responsible for changes of the floor surface if mechanical tools are used, or suggested detergents are not utilized following the proper procedures and instructions suggested by the producer. Avoid using excessively acid or basic detergents and abrasive sponges or clothes. The use of polishing machines and waxes is not recommended. Water or steam floor cleaners can be instead used but only in combination with neutral detergents.

NOTE: As specified by the UNI 11493.2013 standard, paragraph 5.2.2: “the visual inspection of the tiles must be performed at a minimum distance of 1.5 m at eye level. Side lighting is not allowed. Surface effects not detectable in these conditions are not to be deemed as faults”. The manufacturing process of this product is extremely sophisticated, carried out also through some “hand crafted” stages therefore, imperfections and dots on the surface have to be considered a characteristic of the product. In case an hollow cutting is necessary, it is recommended to use proper diamond cutting tools protecting the surface from dust and/or residue using a tape and removing the tape only after the cutting is finished. This procedure is necessary to protect the slab from chipping and scratches.

INSTRUCTIONS FOR TRANSPORTATION, HANDLING AND STORAGE OF THE MATERIAL

We pay a special attention to the packaging of our materials in order to reduce the risk of any breakage during transportation. Our wooden packing holds the weight of other pallets stacked on top (“Settecento” pallets). It is important to stack only pallets of the same typology and size (do not stack “standard/Euro” pallet on top of our pallets. During transportation and storage, special attentions are suggested: flat and stable cases have to be used securing the slabs so that they do not slide. During loading and unloading operations, make sure slabs do not slide over each other; slabs have to be handled by proper staff and using proper tools such as suction cups. A wrong storage place may produce breakages or scratches on the surface. Storage should be done in covered areas with not extreme climate conditions.

“Settecento” is not responsible for any damage and/or breakage due to mishandling the material in loading or downloading procedures, due to material handled by not authorized personnel or to any event that may occur in every place after the Company gates.

POSE ET NETTOYAGE

Les caractéristiques du “Zero.6” réside sur son surfacage, qui est entièrement vitrifiée. Ainsi, cette série est composée de matériaux similaires au verre et devra être considéré en tant que tel en ce qui concerne sa pose et son nettoyage. En conséquence , le poseur devra impérativement avant de passer à l’installation, a la vérification de la compatibilité de l’enduit et des joints avec le produit utilisé. Il est donc nécessaire de suivre scrupuleusement les instructions fournies par les fournisseurs de colle et joint , et par conséquent de bien respecter les temps de pose et surtout de nettoyage.

PREMIER NETTOYAGE

Le premier nettoyage après la pose est fondamental; Les saletés résultants des résidus de l’enduit, de la colle, du ciment ou du chaux , devront être retiré très rapidement . Ne jamais utiliser des instruments mécaniques pour le premier nettoyage: la suppression des résidus d’enduit et de colle s’effectuera chimiquement. Le nettoyage est à la charge du poseur avant la livraison et l’utilisation finale du plancher. Dans tous les cas bien suivre les indications du fournisseur de l’enduit colle et joint, en ce qui concerne le temps et la typologie des détergents à utiliser. Une fois passé le temps nécessaire pour l’endurcissement de l’enduit, il faudra bien enlever a la surface, les éventuels résidus solides puis nettoyer avec beaucoup d’eau et utiliser les détergents appropriés. (exemples: Fila Detertek, ou Fila PS87). Tester préalablement le détergent sur un carrelage non posé ou dans un endroit caché avant de l’utiliser, puis pour procéder au nettoyage, distribuer de façon uniforme la solution diluée en utilisant un chiffon de nettoyage, qui doit toujours être doux. Rincer abondamment avec de l’eau chaude et propre. Si le premier nettoyage n’a pas été fait correctement, répéter l’opération.

NETTOYAGE ORDINAIRE

Pour le nettoyage quotidien, enlever les saletés avec un tissu microfibre et nettoyer la superficie avec un détergent neutre (ex. Fila cleaner) dilué dans de l’eau comme indiqué par le fournisseur du détergent l’indique . “Settecento” décline toute responsabilité pour tout défauts superficiels que peuvent être créer si le nettoyage est effectué avec des instruments mécaniques et/ou avec des produits inappropriés qui feraient que les précédentes indications d’installation, de nettoyage et de manutention ne soient pas respectées. Enfin éviter d’utiliser des produits excessivement acides ou excessivement basiques et des éponges ou chiffons abrasifs. Il est plutôt conseillé d’utiliser des polisseurs et des vernis de cire. Il est possible au lieu d’utiliser des machines, de laver le plancher à l’eau ou à la vapeur toujours et seulement avec des détergents neutres.

REMARQUE :

Comme le prévoit la norme UNI 11493.2013 paragraphe 5.2.2 : "l'examen visuel des carrelages doit être effectué à une distance de minimum 1,5m à taille d'homme. L'illumination à lumière rasantes n'est pas permise. Les effets superficiels non détectable dans ces conditions ne sont pas considérés comme des défauts". La production de ce produit est sophistiquée, et réalisée aussi à travers différentes phases de production "artisanales". C'est pourquoi , il est donc possible d’ avoir des imperfections et des taches superficielles qui les rendent uniques. Pour finir ; Toute découpes ou trous, devront être réalisés avec des forets tungstène de carbures ou de diamants qui protègent les carrelages.

RECOMMANDATIONS POUR LE TRANSPORT, LA MANUTENTION ET LE STOCKAGE DU MATERIEL

Nous apportons une attention particulière à l’emballage de nos matériaux pour réduire au maximum le risque de deteriorations pendant le transport. Nos emballages en bois peuvent soutenir le poids d’autres palettes (toujours “Settecento”). Il est important d’empiler seulement des palettes de la meme typologie et taille (Ne surtout pas mettre de palettes standardisée européenne sur nos palettes). Durant le transport et le stockage, quelques attentions particulières sont suggérées: Toujours utiliser des caisses plates et stables pour ainsi sécuriser les dalles et éviter qu’elles ne glissent. Pendant les operations de chargement et de déchargement, s’assurer que les dalles de glissent pas l’une sur l’autre; Les soulever et les bouger avec les instruments et le personnel adaptés (ex: ventouses). Une mauvaise position de stockage ou un lieu inadéquat pourra engendrer des fissures, écaillages, éraflures ou des traces superficielles et/ou permanentes.

“Settecento” n’assumera pas la responsabilité pour des dommages ou casés causés aux matériaux de par une erreur de chargement ou de déchargement, de par des mouvements non autorisés, ou tout type d’évenements qui aura put intervenir après le dépôt des marchandises fait par l’entreprise.

VERLEGUNG UND REINIGUNG

Eine Charakterik von ZERO6 ist die voellig verglaste Oberflaeche des Materials, die sich aus glasaehnlichen Substanzen zusammensetzt, was wiederum bei Verlegung un Pflege des Produkts beruecksichtigt werden muss. Der FLIESENLEGER ist angehalten, vor der Verbaueung des Materials zu ueberpruefen, dass die verwendeten Kleber und Fugenmaterialien kompatibel sind. Es ist dabei notwendig, dass er sich bezueglich der Verlegezeiten und Reinigungsfristen sorgfaeltig an die Anweisungen der Hersteller dieser Produkte haelt .

GRUNDREINIGUNG

Die Grundreinigung nach der Verlegung des Materials ist von fundamentaler Bedeutung. Hier muss im vorgegebenen zeitlichen Rahmen alles von der Oberflaeche entfernt werden, was mit Fugenmaterial, Kleber, Zement oder Kalk zutun hat. Dabei sind auf keinen Fall mechanische Hilfsmittel zu verwenden. Alle Restsubstanzen sind ausschliesslich chemisch zu entfernen. Die Reinigung ist die Pflicht des Fliesenlegers und vor der Uebergabe des Endproduktes zu erledigen. Die Anweisungen des Fugenmaterial - Herstellers sind sorgfaeltig hinsichtlich der zu verwendenden Reinigungsmittel und Zeitraeume zu befolgen. Sobald das fugenmaterial getrocknet ist, muss die Oberflaeche von Rueckstaenden befreit und anschliessend mit ausreichend sauberem Wasser und unter Verwendung geeigneter Reinigungsmittel (z.B. FILA DETERTEK oder FILA PS87) gewaschen werden. Hier sollte zuvor ein Test des Reinigers auf einer unverlegten Platte oder auf einer spaeter von einem Moebel bedeckten Platte durchgefuehrt werden. Danach wird der verduennte Reiniger gleichmaessig mit einem normalen weichen Kuechenschwamm auf der Flaeche verteilt . es sind stets weiche Stoffe dabei zu verwenden. Anschliessend wird die Oberflaeche mit warmen klaren Wasser gespueilt, und wenn erforderlich, die Prozedur wiederholt.

ALLTAEGLICHE PFLEGE

Fuer die taegliche Pflege genuegt es , dass die etwaige Rueckstaende mit einem Mikrofasertuch entfernt werden und die Oberflaeche mit einem neutralen Reiniger gewaschen wird (z.B. FILA CLEANER) , der entsprechend den Beschreibungen verduennt werden muss. Settecento lehnt jegliche Verantwortung fuer eventuelle veraenderungen des Belags ab, wenn bei der Reinigung mechanische Mittel und nicht geeignete chemische Reiniger verwendet worden sind oder die zeitlichen Fristen und Anweisungen bei der Verlegung und Pflege nicht respektiert worden sind. Vermeiden Sie den Gebrauch von extrem sauren und extrem basischen Substanzen sowie von kratzenden Schaewammen oder Tuschern bei der Reinigung.vermeiden Sie den gebrauch von Hochglanzreinigern und Wachsen. Stattdessen sollten immer Hilfsmittel und Dampfreiniger mit neutralen Reinigern verwendet werden.

BEACHTEN SIE :

Wie in der Norm UNI 11493 201 3, Paragraf 5.2.2.“ praezisiert, wird die optische Kontrolle des Fliesenbelags zwingend aus einer Entfernung von 1,5 m also mindestens Augenhoehe durchgefuehrt. Hierbei ist kein zusätzlicher Strahler erlaubt. Alle Oberflaechendetails, die hierbei nicht sichtbar sind, werden nicht als Defekt betrachtet und aberkannt. Die Herstellung dieses Produktes geschieht hochechnologisch, aber auch zum Teil unter Verwendung traditioneller handwerklicher Handgriffe, die zu optischen Effekten fuehren, die allerdings als “imperfectionen” einzigartige Effekte bilden koennen. Im Falle dessen, dass Schnitte oder Bohrungen erforderlich werden sind, sollten dies emit Diamantaufsatzten durchgefuehrt werden. Waehrend dessen ist die Oberflaeche vor BeschaeDIGungen wie Kratzern und KantenbeschaeDIGungen und Schmutz zu schuetzen , danach wie oben beschrieben sofort zu reinigen.

HINWEISE FUR DEN TRANSPORT, DEM UMGANG UN DI LAGERUNG DES MATERIALS

Wir widmen der Verpackung unserer Materialien besondere Aufmerksamkeit um das Risiko einer BeschaeDIGung bei seinem Transport zu senken. Unsere Holzverpackung haelt dem Gewicht einer weiteren, darauf plazierten von Settecento gelieferten Palette stand. Es ist wichtig, nur Materialien der selben Verpackungsgroesse zu stapeln und nicht etwa Europaletten. Waehrend des Transportes und der Lagerung moechten wir folgende hilfreiche Hinweise geben: Benutzen Sie immer flache und stabile Kisten, um zu verhindern, dass die Platten verrutschen koennen. Beim Be- und Entladen ist darauf zu achten, dass die Platten nicht von einer Seite auf die andere rutschen koennen. Das Heben und Bewegen der Platten muss mit den geeigneten Vorrichtungen / Saugnapfe und von geschultem Personal durchgefuehrt werden. Eine falsche Position oder auch ein ungeeigneter Lagerort koennen BeschaeDIGungen provozieren. Abplatzungen, Kratzer oder andere dauerhafte OberflaechenbeschaeDIGungen. Es ist wichtig, diese Platten an geschlossenen Lagerorten zu lagern, die normale klimatische Bedingungen aufweisen.

“Settecento” uebernimmt fuer SchaeDIGen bzw. Brueche des Materials, die auf falsche Handhabungen beim be- und Entladen, unerlaubte Bewegungen oder andere unfallartige Ereignisse jedweder Art nach dem Verlassen unseres Lagers keine Haftung.

УКЛАДКА И ЧИСТКА

Основной характеристикой “Zero.6” является полностью поверхность, т.е. она состоит из стеклообразного материала и поэтому должна рассматриваться как стекло что касается укладки и чистки. Перед началом установки плит, укладчик должен проверить совместимость с ними используемого клея и смеси для заполнения швов/затирки. Необходимо, также, строго придерживаться инструкций по применению и разбавлению, указанных производителем средств по укладке на упаковке.

ЧИСТКА ПОСЛЕ УКЛАДКИ

Чистка плит после укладки играет фундаментально важную роль. Она предназначена для полного удаления остатков материалов, используемых для укладки, и других строительных материалов. При этом для первой чистки никогда не используются механические инструменты: удаление избыточной смеси для затирки и клея должно быть произведено химически Как правило, чистка после укладки выполняется плиточником перед сдачей выполненной работы и до ввода помещения в эксплуатацию. Необходимо строго придерживаться инструкций производителя затики, клея и т.д. относительно сроков выдержки и правильного типа моющего средства.

По истечении сроков выдержки затирки необходимо удалить твёрдые остатки материала, после чего выполнить тщательную мойку обильным количеством чистой воды с добавлением соответствующих моющих средств (к примеру Fila Detertek или Fila PS87). Перед использованием моющие средства необходимо проверить на одной из оставшихся плиток или же на скрытой участке выложенной плиткой поверхности. После этого тщательно вымыть поверхность, равномерно распределяя разбавленный раствор при помощи обычной швабры или же другого типа мягких полотёров. И завершить первую чистку смывая раствор большим количеством чистой горячей воды. Если чистка не была произведена правильным путём, её нужно повторить.

КАЖДОДНЕВНАЯ ЧИСТКА И УХОД

Для ежедневной уборки достаточно удалить грязь салфеткой из микрофибры и вымыть поверхность раствором тёплой воды с моющим средством на нейтральной основе, каким например может быть Fila Cleaner. “Settecento” снимает с себя любую ответственность за испорченный материал в случае использования не соответствующих моющих средств/ инструментов или не соблюдения вышеприведённых правил по укладке, чистке и уходу. Необходимо избегать применения слишком кислотных или же слишком базовых средств, а также использования абразивных губок. Не рекомендуется использование полотёров и восковых полиролей. Наоборот приветствуется использование поломочных машин для влажной или паровой уборки полов, но только в сочетании с нейтральными моющими средствами.

ПРИМЕЧАНИЯ: Согласно требованиям стандарта UNI 11493.2013, пункт 5.2.2: “осмотр облицованной плиткой поверхности необходимо выполнять на минимальном расстоянии 1,5 м, на высоте человеческого роста. Применение скользящего освещения при осмотре не допускается. Эффекты на поверхности, не обнаруживаемые в вышеуказанных условиях, дефектами не считаются.”

Производство этого материала является сложным процессом, некоторые этапы которого происходят ремесленным путём, в следствии чего, на поверхности могут присутствовать некоторые неточности и точки, которые рассматриваются как характеристика продукта и придают ему уникальность. При необходимости выполнить резку или отверстие, рекомендуется использовать алмазные инструменты, защищая поверхность плит от пыли и грязи малярной или другой подходящей бумажной лентой, которая удаляется только при завершении работы. Это крайне важно для предотвращения царапин и сколов.

ISTRUZIONI PO PEREVOZKE, MANIPULIROVANIU I KRANINIU MATERIALOV

Мы уделяем особое внимание упаковке наших материалов для того чтобы свести к минимуму риск их повреждения вследствие транспортировки. Наши деревянные ящики выдерживают вес возможных помещенных сверху поддонов Settecento. При этом очень важно грузить сверху только поддоны/ящики той же типологии. Не рекомендуется помещать на ящики поддоны другого типа. Во время транспортировки и хранения советуем уделять особое внимание на следующие моменты: Во избежание скопления, должны быть использованы только плоские и устойчивые ящики. При погрузке и разгрузке избегать скопления плит одной по поверхности другой; Поднимать и перемещать плиты рекомендуется исключительно соответствующими инструментами (например при помощи специальной рамы с присосками) и хорошо обученным персоналом. Неправильное положение или неподходящее место для хранения могут привести к сколам, царапинам, разлому плит или же другим, в некоторых случаях неоправимым, поверхностным повреждениям. Это важно хранить материал в закрытых помещениях обеспечивающих нормальные климатические условия.

“Settecento” не несет никакой ответственности за ущерб и/или разлом, вызванные неправильной погрузкой или разгрузкой материала, неразрешённой манипуляцией и другого вида неосторожных действий везде, где они могут произойти за пределами своих складов.

La marcatura CE è la certificazione di sicurezza del prodotto richiesta dall' Unione Europea, ed ha lo scopo di salvaguardare la salute delle persone e i beni nelle opere di costruzione. Il nuovo Regolamento UE N . 305/2011 è in vigore dal 1 luglio 2013. La novità più rilevante è l'introduzione della Dichiarazione di Prestazione (DOP, Declaration Of Performance) con la quale il fabbricante comunica i requisiti di sicurezza dei propri materiali. Le DOP di Ceramiche Settecento sono disponibili sul sito internet www.settecento.com

The CE mark is the Certification of product's safety required by EU and it is finalized to protect the people's health and the things in buildings construction. The new Regulation UE N. 305/2011 valid from the first of July 2013 introduces the Declaration Of Performance (DOP). The DOP declares the safety requirements of the manufacturer's materials. Маркировка CE является сертификатом безопасности продукции, запрашиваемым Европейским Союзом с целью защиты здоровья людей и сохранности имущества при строительно-монтажных работах. Самым важным нововведением в регламентацию **UE N. 305/2011** в силе с **1 июля 2013** года является введение Декларации Производительности (**DOP, Declaration Of Performance**) в которой производитель декларирует соответствие материалов с требованиями безопасности. **DOP Ceramiche Settecento** доступны на сайте www.settecento.com.

Ceramiche Settecento Valtresinaro S.p.a. si è imposta come regola aziendale il rispetto scrupoloso dell’ambiente. Ciò ha portato ad adottare le seguenti pratiche:

MASSIMA LIMITAZIONE DI EMISSIONI INQUINANTI IN ATMOSFERA

Tutte le emissioni in atmosfera legate al ciclo produttivo vengono sottoposte a specifici processi di filtrazione nel rispetto dei limiti imposti dagli enti competenti. Per verificare il rispetto di tali parametri le emissioni vengono campionate e controllate periodicamente da un laboratorio accreditato che, dopo averle analizzate, rilascia un apposito certificato di idoneità. I dati raccolti dimostrano che l’emissione di sostanze potenzialmente dannose per l’ambiente è sempre largamente inferiore ai limiti imposti.

MASSIMA LIMITAZIONE DELLE EMISSIONI DI GAS SERRA

Parte del calore prodotto durante la fase di cottura viene riutilizzato nel forno stesso come aria comburente per i bruciatori. Questo accorgimento permette di ridurre la quantità di metano necessaria alla cottura delle piastrelle e di conseguenza la quantità di gas serra emessa in atmosfera.

RIUTILIZZO TOTALE DELLE ACQUE DI LAVORAZIONE

Tutte le acque reflue derivanti dal ciclo industriale vengono raccolte in apposite vasche e riutilizzate per la preparazione dell’impasto atomizzato. Questo consente di limitare al massimo il consumo di acqua pulita ed impedisce che vengano immesse in ambiente acque contaminate.

RIUTILIZZO TOTALE DEGLI SCARTI CRUDI

Tutti gli scarti crudi generati nel ciclo produttivo vengono riutilizzati nella preparazione dell’impasto. Questo consente di limitare l’utilizzo di materie prime naturali quali argille, feldspati, sabbie ecc.

RIUTILIZZO TOTALE DEGLI SCARTI COTTI

Tutti gli scarti cotti generati nel ciclo produttivo vengono riciclati esternamente come strato inerte nella realizzazione di pavimentazioni stradali ed opere edili in genere. Questo consente di limitare l’estrazione di ghiaia ed altri inerti naturali.

PALLET FAO

Utilizzo di pallet senza corteccia conformi allo standard IPPC / FAO ISPM 15, offrendo quindi ai Paesi che importano i prodotti “ Ceramiche Settecento” ogni garanzia per la salvaguardia del patrimonio forestale.

It is a full pledge of “Ceramiche Settecento Valtresinaro S.p.A.”an accurate observance of environment respect. In specific through the following measures:

LOW GAS EMISSION IN THE ATMOSPHERE – GREENHOUSE GASES

All emissions in atmosphere from to the production cycle are subjected to specific filtration processes in full compliance to the limits imposed by authorities. To verify the observance of these parameters emissions samples are duly and periodically checked by an accredited laboratory that finally issues a conformity certificate. The collected data show that the emission of harmful substances for the environment is always widely under the fixed limit. The majority of the heat produced during the firing process is recycled inside the kiln to feed the Burners. This device allow to decrease the quantity of Gas required to fire the tiles minimizing the Gas Emissions in the Atmosphere.

COMPLETE WASTE WATER RECYCLED

All the waters wasted during manufacturing process are gather together on appropriate basins and re-used for the clay's mix preparation. This allows to maximize the saving of clean water and avoids dirty water on the environment.

INDUSTRIAL WASTE RECYCLED - NOT FIRED TILES

All the not fired material, wasted from the regular production process are re-used for the preparation of the clay's mix. This allows to reduce the use of new raw materials such as clays, sands, feldspates etc..

INDUSTRIAL WASTE RECYCLED - FIRED TILES

All the fired material wasted during the manufacturing process are reused externally as inert materials for roads paving and other building constructions. This allows to reduce the use and the digging of new natural materials such as clay, sands etc..

FAO PALLET

For storing and shiiping of final products “Ceramiche Settecento Valtresinaro S.p.A” uses debarked pallets (DB) conform to the IPPC / FAO ISPM 15 standards. This is a further help for the forest safeguard of Countries importing “Ceramiche Settecento Valtresinaro S.p.A” materials.

Ceramiche Settecento S.p.a. hat den Umweltschutz zum Kriterium ihres betrieblichen Handelns erhoben. Dies hat zur Anwendung folgender Verfahrensweisen gefuehrt :

MAXIMALE BEGRENZUNG DES SCHADSTOFFAUSSTOSSES IN DIE ATMOSPHAERE

Alle beim Produktionszyklus anfallenden Emissionen in die Atmosphaere werden spezifischen Filterungsprozessen unterzogen, welche die seitens der diesbeueglich zustaeendigen Behoerden vorgegebenen Begrenzungswerte beruecksichtigen. Um die Einhaltung dieser Ausstoss- Parameter zu ueberpruefen, werden seitens eines beeidigten Labors regelmaessige Proben genommen und kontrolliert, wonach ein entsprechendes Zertifikat ausgestellt wird. Die gesammelten Daten bezeugen, dass die Emissionsmengen von umweltschaedigenden Stoffen weit unterhalb der geforderten Begrenzung liegt.

MAXIMALE BEGRENZUNG DES AUSSTOSSES VON TREIBHAUSGASEN

Teile der waehrend des Brennvorgangs anfallenden Waerme werden vom Ofen als verbrennungsfoerdernde Luft wieder genutzt. Dieses Verfahren reduziert den fuer die Fliesenproduktion notwendigen Metangasverbrauch und damit auch die Emissionen der Treibhausgase in die Atmosphaere.

KOMPLETTE WIEDERVERWERTUNG DES WASSERS

Das gesamte beim Produktionszyklus anfallende Abwasser wird in dafuer geeigneten Becken gesammelt und bei der Herstellung des Scherbenpulvers verwendet. Dies

erlaubt eine maximale Begrenzung des Trinkwasserverbrauchs und verhindert den Ausstoss von verunreinigtem Wasser in die Umwelt.

KOMPLETTE WIEDERVERWERTUNG DER UNGEBRANNTEN, ROHEN ABFAELLE

Alle waehrend des Produktionsprozesses anfallenden Abfaelle von Rohstoffen werden fuer die Erzeugung des Scherben wiederverwendet. Dies erlaubt die Begrenzung des Rohstoffverbrauchs wie z.B. Ton, Feldspat und Sand.

KOMPLETTE WIEDERVERWERTUNG DER GEBRANNTEN ABFAELLE

Alle waehrend des Produktionsprozesses anfallenden bereits gebrannten Abfaelle werden ausserhalb des Unternehmens u.a. fuer den Strassenbau oder andere Bauprojekte wiederverwertet. Dies erlaubt eine Reduzierung der Kiesgewinnung und anderer inerter Materialien und schon't so die Umwelt.

FAO - PALETTEN

Verwendung von Paletten ohne Rinden gemaess der Vorgabe IPPC/FAO ISPM 15. Dies gibt den Importlaendern die Garantie, den eigenen Waldbestand zu schuetzen.

Ceramiche Settecento ~ Valtresinaro S.p.A. s' est imposé comme règles, le respect scrupuleux de l'environnement. Cela a conduit à adopter les pratiques suivantes:

LIMITATION MAXIMALE DES ÉMISSIONS DANS L'ATMOSPHERE.

Toutes les émissions, liées au cycle de production, sont soumises à des procédés de filtration spécifiques, dans les limites imposées par les organismes compétents. Pour vérifier la conformité, avec ces paramètres, les émissions sont échantillonnées et contrôlées périodiquement , par un laboratoire accrédité qui après avoir effectué ces analyses délivre un certificat de validité Certifié Conforme. Les données recueillies montrent, que les émissions de substances, potentiellement nocives pour l’environnement, sont toujours bien en dessous des limites imposées.

MAXIMUM DE LIMITATION DES ÉMISSIONS DE GAZ À EFFET DE SERRE

Une partie de la chaleur produite au cours de l’étape de cuisson est réutilisée dans le même four comme air de combustion pour les brûleurs. Cette disposition nous permet de réduire la quantité de méthane nécessaire à la cuisson des carreaux, et par conséquent la quantité de gaz à effet de serre émis dans l’atmosphère.

RÉUTILISATION TOTALE DES EAUX DE TRAITEMENT

Toutes les eaux usées provenant du cycle d’industrialisation sont recueillies dans des cuves appropriées et réutilisées dans la préparation du nouveau mélange de la matière première atomisée (pâte de la céramique avant cuisson) . Cela nous permet de limiter au maximum la consommation d’eau potable en évitant de libérer dans l’environnement des eaux contaminées .

RÉUTILISATION DES DÉCHETS BRUTS (non cuits)

Tous les déchets bruts générés dans le cycle de production sont réutilisés dans la préparation de la pâte. Cela nous permet de limiter l'utilisation de matières premières naturelles telles que les argiles, sables de feldspath etc.

RÉUTILISATION DES DÉCHETS CUITS

Tous les déchets cuits générés dans le process de production sont recyclés en tant que couche inerte dans la réalisation des revêtements routiers ou travaux de constructions idoines. Cela permet de limiter l’extraction de gravier et autres agrégats naturels.

PALETTE FAO

Utilisation de palettes sans écorce conforme à NIMP CIPV / FAO 15, offrant ainsi aux pays importateurs toutes les garanties pour la préservation de leurs forêts patrimoniales.

Ceramiche Settecento Valtresinaro S.p.A. берёт за правило скрупулёзное уважение к окружающей среде, что привело к принятию следующих мер:

МАКСИМАЛЬНОЕ ОГРАНИЧЕНИЕ ЗАГРЯЗНЯЮЩИХ ВЫБРОСОВ В АТМОСФЕРУ

Все выбросы в атмосферу, связанные с производственным циклом, подвергаются специфическим процессам фильтрации согласно ограничениям, предусмотренным компетентными органами. Для проверки соблюдения данных параметров периодически берутся образцы выбросов для проверки аккредитированной лабораторией, которая выдаёт особый сертификат качества. Собранные данные показывают что выброс веществ, потенциально опасных для окружающей среды, всегда намного ниже дозволенного предела.

МАКСИМАЛЬНОЕ ОГРАНИЧЕНИЕ ВЫБРОСОВ ПАРНИКОВЫХ ГАЗОВ

Часть тепла выделяемого в процессе обжига используется в той же печи в качестве воздуха, необходимого для процесса горения. Этот приём позволяет уменьшить количество метана, используемого для обжига плитки, и, как результат, количество парниковых газов выбрасываемых в атмосферу.

100% ПОВТОРНОЕ ИСПОЛЬЗОВАНИЕ ОТРАБОТАНОЙ ВОДЫ

Все сточные воды остающиеся от производственного цикла собираются в специальных резервуарах и в последствии используются для изготовления атомизированной смеси. Данная технология позволяет максимально ограничить использование чистой воды и предотвратить выброс загрязнённой воды в окружающую среду.

100% ПОВТОРНОЕ ИСПОЛЬЗОВАНИЕ ОТХОДОВ СЫРЬЯ

Всё отходы сырья остающиеся от производственного цикла повторно используются для приготовления смеси, что позволяет ограничить использование такого природного сырья как глине, пески, полевые шпаты и т.д.

100% ПОВТОРНОЕ ИСПОЛЬЗОВАНИЕ ОБОЖЖЕННЫХ ОТХОДОВ

Всё обожженные отходы остающиеся от производственного цикла применяются в качестве инертного слоя при реализации дорожных покрытий и других спроительных работах, что позволяет ограничить добычу гравия и других природных заполнителей.

ПАЛЕТ FAO

Использование палетов без коры, соответсвующих стандарту IPPC / FAO ISPM 15, гарантирует сранам-импортёрам защиту их лесных ресурсов.

CONDIZIONI GENERALI DI VENDITA

1) ACCETTAZIONE DA PARTE DELL'ACQUIRENTE DELLE CONDIZIONI GENERALI DI VENDITA Queste Condizioni generali di Vendita saranno valide per ogni contratto della Ceramiche Settecento Valtresinaro S.p.A. ("Venditore") per la vendita di merci o articoli ("Prodotti") a qualsiasi soggetto che ha acquistato o concordato di acquistare Prodotti del Venditore ("Acquirente") a meno che il Venditore abbia diversamente convenuto per iscritto. L'Acquirente al momento in cui inoltra un ordine dei Prodotti, accetta queste Condizioni generali di Vendita. Qualsiasi altro termine o condizione che possa essere predisposto in qualsiasi momento dall'Acquirente, sotto forma di ordine dell'Acquirente o in qualsiasi altra forma, sarà nullo e non valido e non avrà nessun effetto, anche se non verrà sollevata una esplicita obiezione allo stesso da parte del Venditore.

2) ACCETTAZIONE E CONFERMA DELL'ORDINE

Tutti gli ordini dell'Acquirente, ottenuti tramite un agente del Venditore o altrimenti, sono sottoposti all'approvazione del Venditore. Nessun ordine dell'Acquirente sarà vincolante per il Venditore, a meno che non sia accettato per iscritto dal Venditore, presso la sede del Venditore a Fiorano Modenese (Mo), con apposita Conferma d'Ordine firmata da un funzionario debitamente autorizzato a firmare per conto del Venditore, e con i limiti stabiliti in tale Conferma d'Ordine. Qualsiasi ordine dell'acquirente sarà vincolante per l'Acquirente a meno che e fino a quando non venga rifiutato per iscritto dal Venditore.

3) PREZZI

Salvo quanto diversamente concordato dal Venditore per iscritto, l'Acquirente pagherà al Venditore i Prodotti ai prezzi in vigore al momento della spedizione.I prezzi si intendono per consegna "Franco Fabbrica", con esclusione delle spese di spedizione e di trasporto, delle tasse, dei dazi doganali e di qualsiasi altro onere.I prezzi possono, a discrezione del Venditore, essere aumentati, dopo l'accettazione dell'ordine da parte del Venditore, per riflettere aumenti dei costi delle materie prime, della manodopera, dei combustibili, ecc. Qualora l'aumento dei prezzi sia superiore al 20%, l'Acquirente potrà recedere dal contratto, notificando per iscritto al Venditore la sua volontà entro il termine perentorio di 10 giorni dal ricevimento dell'avviso di aumento dei prezzi, restando esclusa qualsiasi rivendicazione o pretesa di danni a suo favore.

4) SCONTI E ABBUONI

Salvo quanto diversamente concordato dal Venditore per iscritto, l'Acquirente non sarà autorizzato a ricevere sconti o abbuoni di alcun tipo. Nessun agente del Venditore è autorizzato a concedere sconti o abbuoni per conto del Venditore.

5) TEMPI DI CONSEGNA

I termini di consegna eventualmente specificati dal Venditore sono sempre puramente indicativi e in nessun caso potranno essere considerati decisivi. Il Venditore si riserva il diritto di cancellare, sospendere o ritardare, in tutto o in parte, qualsiasi ordine per esigenze o problemi di produzione o di consegna del Venditore, per ragioni di forza maggiore e per qualsiasi altro evento al di fuori del controllo del Venditore. Il Venditore si riserva anche il diritto di cessare la produzione di particolari Prodotti per esigenze o problemi di produzione o di mercato. L'Acquirente rinuncia a qualsiasi ed ogni rivendicazione per cancellazione di ordini o ritardi nella consegna dei Prodotti, ivi comprese, senza limitazioni, pretese per danni diretti, indiretti, accidentali, consequenziali o altri danni o compensazioni. Solo qualora tali ritardi siano superiori a 60 giorni l'Acquirente potrà recedere da contratto notificando per iscritto al Venditore la sua volontà, restando esclusa qualsiasi rivendicazione o pretesa di danni a suo favore.

6) RISCHIO DELLA PERDITA

Indipendentemente da qualsiasi altra condizione di vendita che possa venire indicata o dal fatto che le spese di spedizione e trasporto vengano pagate dal Venditore, tutti i rischi della perdita o di danni ai Prodotti passeranno all' Acquirente al momento della consegna dei Prodotti da parte del Venditore ad un vettore e qualsiasi rivendicazione per perdite o danni potrà essere fatta dall'Acquirente solo nei confronti del vettore.

7) RISERVATO DOMINIO

Fino a quando il Venditore non avrà ottenuto dall'Acquirente il pagamento completo dei Prodotti, il Venditore mantiene il diritto di proprietà sui Prodotti stessi, secondo quanto previsto dall'articolo 1523 e seguenti del Codice Civile Italiano.

8) CONDIZIONI DI PAGAMENTO

L'Acquirente effettuerà il pagamento presso la sede del Venditore a Fiorano Modenese (Mo), entro i termini stabiliti nel contratto. Per nessun motivo l'Acquirente potrà ritardare o sospendere il pagamento, indipendentemente da qualsiasi rivendicazione, ivi compresa, senza limitazione, qualsiasi rivendicazione per pretesi difetti, carenze o irregolarità dei Prodotti, salva la facoltà di ripetere quanto possa dimostrare di avere indebitamente pagato. L'accettazione da parte del Venditore di qualsiasi assegno, tratta, pagherò o altro metodo, sarà salvo buon fine e non costituirà pagamento fino a quando il Venditore non avrà incassato l'intero importo in contanti. In caso di qualsiasi ritardo, anche parziale, di pagamento, il Venditore avrà il diritto di sospendere le consegne e potrà, a sua scelta, esigere il pagamento immediato di tutti gli importi dovuti dall'Acquirente o pretendere adeguate garanzie per il pagamento, oppure considerare risolto il contratto. In caso di ritardo nel pagamento l'Acquirente dovrà pagare al Venditore gli interessi, per l'importo non pagato, dalla data di scadenza alla data di effettivo pagamento, al tasso del 5% al di sopra del Tasso Ufficiale della Banca d'Italia durante tale periodo o al tasso massimo ammesso per legge, se inferiore. Indipendentemente da qualsiasi diverso accordo riguardo ai pagamenti o condizioni di credito, il Venditore potrà, a propria discrezione in qualsiasi momento, richiedere il pagamento in contanti prima della spedizione di parte o di tutti i Prodotti. Se il Venditore ritiene che l'Acquirente non possa effettuare i pagamenti dovuti in base al contratto, il Venditore può, a propria discrezione, considerare risolto il contratto, fermo restando l'obbligo per l'Acquirente di pagare i Prodotti già spediti.

Nel caso in cui il Venditore intraprenda procedure per incassare qualsiasi importo dovuto dall'Acquirente, oppure per fare valere qualsiasi diritto derivante dal contratto, incluso il riservato dominio, l'Acquirente dovrà rimborsare al Venditore tutte le spese, competenze ed onorari del giudizio.

Al ricevimento dei Prodotti l'Acquirente dovrà sottoporli ad un accurato controllo, aprendo le scatole. L'Acquirente assume piena e completa responsabilità per verificare se i Prodotti sono conformi a quelli ordinati o sono adatti all'uso che l'Acquirente ne vuole fare, indipendentemente da qualsiasi suggerimento o istruzione dati dal Venditore relativamente ai Prodotti o al loro uso. In nessun caso il Venditore potrà dare, o si considererà avere dato, alcuna garanzia, espressa o implicita, relativamente alla corrispondenza o all'uniformità o a qualsiasi altro aspetto di colore, tonalità o sfumatura dei Prodotti, oppure relativamente alla conformità dei Prodotti al colore, tonalità o sfumature di qualsiasi campione. L'Acquirente riconosce che le variazioni di colore, tonalità e sfumatura, sono caratteristiche dei Prodotti e sono ad essi intrinseche ed inevitabili, e che i campioni del Venditore sono solo approssimativi dei Prodotti. In nessun caso il Venditore potrà dare, o si considererà avere dato, alcuna garanzia, espressa o implicita, in relazione a dichiarazioni, descrizioni o illustrazioni contenute in qualsiasi opuscolo o documentazione.

10) RECLAMI

Qualsiasi reclamo o contestazione di qualsiasi tipo dell'Acquirente, ivi compresi, senza limitazioni, reclami per difetti dei prodotti, deve essere specifico e deve essere fatto per iscritto, con lettera raccomandata con ricevuta di ritorno spedita presso la sede del Venditore a Fiorano Modenese (Mo), entro e non oltre 8 giorni dalla data di ricevimento dei Prodotti contestati e, in ogni caso, prima dell'installazione. La mancata presentazione del reclamo nel modo e nei termini sopra indicati costituirà per l'Acquirente un'accettazione irrevocabile dei Prodotti e un'ammissione che i Prodotti sono completamente rispondenti alle specificazioni del contratto. L'Acquirente che abbia presentato reclamo nel modo e nei termini sopra indicati dovrà tenere fermi a disposizione del Venditore per ogni controllo tutti i Prodotti contestati. In ogni caso l'Acquirente non potrà restituire, senza una preventiva autorizzazione scritta dal Venditore, i Prodotti interessati. Ove siano accertati difetti il Venditore potrà a sua scelta, sostituire i Prodotti contestati oppure annullare o risolvere il contratto, in tutto o in parte, senza l'obbligo di sostituzione dei Prodotti. L'Acquirente rinuncia a qualsiasi altra rivendicazione, ivi compresa, senza limitazioni, rivendicazioni per danni diretti, indiretti, accidentali, consequenziali o altri danni o compensazioni e al diritto di annullare o risolvere il contratto.

ALLGEMEINE VERKAUFSBEDINGUNGEN

1) ANNAHME DER ALLGEMEINEN VERKAUFSBEDINGUNGEN VON SEITEN DES KAEUFFERS

Die vorliegenden “Allgemeinen Verkaufsbedingungen“ gelten für alle Verträge von Ceramiche Settecento Valtresinaro S.p.A (“Verkäufer“) für den Verkauf von Waren oder Artikeln (“Produkte“) an jede Person, die Produkte vom Verkäufer erworben hat oder vereinbart hat, diese zu erwerben (“Käufer“), sofern der Verkäufer nicht schriftlich anders entschieden hat. In dem Moment, in dem der Käufer einen Auftrag erteilt, erkennt er die Allgemeinen Verkaufsbedingungen an. Andere Fristen und Bedingungen, die zu einem beliebigen Moment vom Käufer in Form eines Auftrags oder auf andere Weise gestellt werden, sind als nichtig und ungültig zu betrachten und haben keinerlei Auswirkungen, auch wenn sie nicht ausdrücklich vom Verkäufer beanstandet werden.

2) ANNAHME UND BESTAETIGUNG DES AUFTRAGS

Alle Aufträge des Käufers, die durch einen Vertreter des Verkäufers oder auf andere Weise zustande kommen, unterliegen der Genehmigung des Verkäufers. Kein Auftrag von Seiten des Käufers ist für den Verkäufer verbindlich, sofern dieser nicht schriftlich vom Verkäufer von seinem Sitz in Fiorano Modenese, Modena, mittels einer dazu erforderlichen Auftragsbestätigung anerkannt wurde, die von einer dazu berechtigten Person mit Unterschriftenvollmacht des Verkäufers unterzeichnet sein muss; es gelten die in der Auftragsbestätigung festgelegten Bestimmungen. Jeder Auftrag des Käufers ist für diesen verbindlich, sofern und solange er nicht schriftlich vom Verkäufer abgelehnt wird.

3) PREISE:

Sofern nicht anderweitig schriftlich vom Verkäufer festgelegt, kauft der Käufer die Produkte zu dem Preis vom Verkäufer, der im Moment der Spedition gültig ist. Die Preise verstehen sich frei Werk, ausgenommen Speditions - und Transportkosten, Steuern, Zollabgaben und allen anderen Aufwendungen. Die Preise können nach Auftragsannahme durch den Verkäufer, nach Ermessen des Verkäufers angehoben werden, um Kosten erhöhungen für Rohstoffe, Arbeitskräfte, Brennstoffe u.äe. auszugleichen. Übersteigt die Preiserhöhung 20%, kann der Käufer vom Vertrag zurücktreten; dies hat er dem Verkäufer innerhalb einer bindenden Frist von 10 Tagen nacht Erhalt der Mitteilung zur Preiserhöhung schriftlich mitzuteilen, ohne dass sich daraus ein Recht auf Schadensersatz für ihn ergäbe.

4) NACHLAESSE UND VERGUENSTIGUNEN

Sofern nicht anderweitig schriftlich vom Verkäufer festgelegt, stehen dem Käufer keinerlei Nachlässe oder Vergünstigungen zu. Kein Vertreter des Verkäufers ist berechtigt, für diesen Nachlässe oder Vergünstigungen zu gewähren.

5) LIEFERZEITEN

Die ggf. vom Verkäufer angegebenen Lieferzeiten verstehen sich stets nur richtungsweise und sind in keiner Weise als verbindlich zu betrachten. Der Verkäufer behält sich das Recht vor, jeden Auftrag ganz oder teilweise zu streichen, auszusetzen oder zu verzögern, wenn dies durch die Situation oder durch Probleme bei Produktion und Lieferung des Verkäufers, aus Gründen höherer Gewalt oder anderer Ursachen, die nicht in Händen des Verkäufers liegen, notwendig werden würde. Der Verkäufer behält sich außerdem das Recht vor, wegen Produktions- oder Absatzproblemen die Produktion einzelner Produkte einzustellen. Der Käufer verzichtet auf jede Art von Anspruch wegen der Streichung von Aufträgen oder Verzögerung bei der Lieferung der Produkte, darin enthalten - ohne Einschränkung - auf Forderungen für direkten, indirekten, Zufalls – und Folgeschaden und anderen Schaden und Entschädigungen. Nur wenn die Verzögerung 60 Tage überschreitet, kann der Käufer vom Vertrag zurücktreten, indem er dem Verkäufer schriftlich seine Absicht mitteilt, ohne dass sich daraus ein Recht auf Schadensersatz für ihn ergäbe.

6) VERLUSTRISIKO

Unabhängig von jeder anderen Verkaufsbedingung, die angeführt werden könnte, und von der Tatsache, dass die Speditions- und Transportkosten vom Verkäufer übernommen werden könnten, gehen alle Schadens- und Verlustrisiken der Produkte im Moment der Warenübergabe durch den Verkäufer an den Frachtführer auf den Käufer über. Schadensersatzansprüche wegen Verlust oder Beschädigung dürfen vom Käufer nur gegenueber dem Frachtführer geltend gemacht werden.

7) EIGENTUMSVORBEHALT

Solange der Verkäufer nicht die vollständige Zahlung der Produkte vom Käufer erhalten hat, behält der Verkäufer das Eigentumsrecht für diese Produkte, dies gemäss Artikel 1523 und folgende des italienischen Zivilgesetzbuches.

8) ZAHLUNGSBEDINGUNGEN

Der Käufer entrichtet die Zahlung innerhalb der im Vertrag festgelegten Fristen an den Sitz des Verkäufers in Fiorano Modenese, Modena. Der Käufer darf die Zahlung aus keinem Grund verzögern oder aussetzen, unabhängig von irgendwelchen Schadensersatzforderungen, darin enthalten - ohne Einschränkung - Forderungen wegen fehlerhafter, mangelhafter oder unregelmäßiger Produkte, ausgenommen der Möglichkeit, einen Betrag zurückzufordern, der erwiesenermaßen ungeschuldet bezahlt wurde. Die Annahme von Schecks, Wechseln, Eigenakzepten u. a. durch den Verkäufer geschieht unter üblichem Vorbehalt und stellt keine Zahlung dar, solange der Verkäufer nicht den gesamten Betrag in bar einkassiert hat. Bei Zahlungsverzögerungen, und sei es nur von Teilbeträgen, hat der Verkäufer das Recht, die Lieferungen auszusetzen und kann, nach Belieben, die sofortige Zahlung aller vom Käufer schuldigen Beträge fordern, angemessene Zahlungsgarantien verlangen oder den Vertrag als gelöst betrachten. Bei Zahlungsverzögerungen muss der Käufer dem Verkäufer für den noch ausstehenden Betrag ab dem Fälligkeitsdatum bis zum Tag der vorgenommenen Zahlung Zinsen zahlen; dies zu einem Zinssatz, der 5% über dem zu dieser Zeit gültigen offiziellen Satz der Banca d'Italia liegt, oder zum gesetzlich zulässigen Hoechstsatz, wenn dieser niedriger ist. Unabhängig von jeder anderen Absprache bezüglich Zahlungen und Kreditbedingungen, kann der Verkäufer nach eigenem Ermessen jederzeit

die Barzahlung vor der Gesamt- oder Teillieferung der Produkte fordern. Wenn der Verkäufer der Meinung ist, dass der Käufer die ihm vertraglich zustehenden Zahlungen nicht vornehmen kann, kann er nach eigenem Ermessen den Vertrag als gelöst betrachten, wobei der Käufer weiterhin die Pflicht hat, die bereits gelieferte Ware zu bezahlen. Strengt der Verkäufer Verfahren an, um einen vom Käufer schuldigen Betrag einzufordern oder um seine vertraglich festgelegten Rechte, einschließlich das des Eigentumsvorbehaltes, geltend zu machen, muss der Käufer dem Verkäufer alle Ausgaben, Gebühren und Gerichtskosten zurückerstatten.

9) GARANTIE

Wenn nicht ausdrücklich schriftlich festgelegt, leistet der Verkäufer weder ausdrückliche noch stillschweigende Garantie für die Produkte, darin enthalten - ohne Einschränkung - Garantie der Verkäuflichkeit oder Angemessenheit für bestimmte Zwecke. Weiterhin gilt jede schriftlich vom Verkäufer für den Käufer ausgestellte Garantie nicht für Produkte zweiter und dritter Wahl, sondern ausschliesslich fuer Produkte 1. Sortierung mit einem Toleranzanteil von ca 5%. Bei Erhalt der Produkte muss der Käufer diese einer gründlichen Kontrolle unterziehen, wobei die Kartons geöffnet werden. Der Käufer übernimmt die volle Verantwortung, um zu prüfen, ob die Produkte mit der Bestellung übereinstimmen und dem Zweck entsprechen, für den sie vom Käufer vorgesehen wurden, unabhängig von den Empfehlungen und Hinweisen, die der Verkäufer zu den Produkten und ihrem Verwendungszweck gegeben hat. Der Verkäufer kann in keinem Fall ausdrückliche oder stillschweigende Garantie für die Übereinstimmung, Regelmäßigkeit oder andere Aspekte hinsichtlich Farbe, Tönung und Schattierung der Produkte oder die Übereinstimmung der Produkte mit der Farbe, Tönung und Schattierung eines Musters leisten oder geleistet haben. Der Käufer erkennt an, dass die Unterschiede bei Farbe, Tönung und Schattierung zu den produkttypischen Eigenschaften gehören und somit wesentlich und unvermeidlich sind und die Muster lediglich als annaehrnd zu betrachten sind.

10) REKLAMATIONEN

Jede Art von Reklamation und Anfechtung von Seiten des Käufers, darin enthalten - ohne Einschränkung - Reklamationen wegen Produktfehlern, muss spezifiziert werden und innerhalb und nicht später als 8 Tage nach Erhalt der beanstandeten Ware und auf jeden Fall vor dem Verlegen schriftlich per Einschreibebrief mit Rückschein an den Sitz des Verkäufers in Fiorano Modenese, Modena, gerichtet werden. Eine ausbleibende Reklamation in der o.g. Form und Frist stellt eine unwiderrufliche Annahme der Produkte von Seiten des Käufers dar und die Anerkennung, dass die Produkte vollständig mit den Vertragsangaben übereinstimmen. Der Käufer, der die Reklamation in der o.g. Form und Frist vorgenommen hat, muss dem Verkäufer die gesamte beanstandete Ware zur Begutachtung bereithalten. Der Käufer darf die betreffenden Produkte ohne vorausgehende schriftlich Genehmigung des Verkäufers keinesfalls zurücksenden. CONDITIONS GENERALES DE VENTE

1) ACCEPTATION PAR L'ACHETEUR DES CONDITIONS GENERALES DE VENTE

Ces conditions générales de vente s’appliquent à chaque contrat de la Société Ceramiche Settecento Valtresinaro S.p.A. (Vendeur) pour la vente de marchandise ou d'articles (Produits) à toute personne ayant acheté ou convenu d'acheter des Produits du Vendeur (Acheteur), sauf indication différente du Vendeur convenue par écrit. Ces conditions générales de vente sont acceptées par l’Acheteur à partir du moment où il passe une commande de Produits. Toute autre clause ou condition pouvant être prédisposée à tout moment par l’Acheteur, sous forme de commande de L’Acheteur ou sous toute autre forme, sera nulle et invalide et n’aura aucun effet, même si le Vendeur n’aura soulevé aucune objection explicite à ce sujet.

2) ACCEPTATION ET CONFIRMATION DE LA COMMANDE

Toutes les commandes de l’Acheteur, passées à travers un agent du Vendeur ou sous une autre forme, sont soumises à l’acceptation du Vendeur. Aucune commande de l’Acheteur n’est contraignante pour le Vendeur, à moins qu’elle n’ait été acceptée par écrit par le Vendeur, auprès du siège social du Vendeur à Fiorano Modenese, Modena, Italie, par une confirmation de commande signée par un employé dûment autorisé à signer pour le compte du Vendeur, dans les limites établies dans cette confirmation de commande. Toute commande de l’Acheteur est contraignante pour l’Acheteur à moins que et jusqu'à ce qu'elle ne soit refusée par écrit par le Vendeur.

3) PRIX

Sauf accord contraire convenu par écrit par le Vendeur, l’Acheteur paiera au Vendeur les Produits aux prix en vigueur au moment de l’expédition. Les prix s’entendent pour une livraison franco usine, à l’exclusion des frais d’expédition et de transport, des taxes, des droits de douanes et de tout autre frais. Les prix peuvent être augmentés à la discrétion du Vendeur, après l’acceptation de la commande par le Vendeur, pour répercuter les augmentations du coût des matières premières, de la main d’œuvre, du combustible, etc. Si l’augmentation des prix dépasse 20%, l’Acheteur aura la faculté de résilier le contrat, en notifiant par écrit au Vendeur son intention dans un délai péremptoire de 10 jours à partir de la réception de l’avis d’augmentation des prix, mais sans que cela lui donne le droit à prétendre à un dédommagement quelconqueen sa faveur.

4) ESCOMPTES ET REMISES

Sauf accord écrit différent convenu par le Vendeur, l’Acheteur n’est pas autorisé à bénéficier d’escomptes ou de remises quelconques. Aucun agent du Vendeur n’est autorisé à concéder des escomptes ou des remises pour le compte du Vendeur.

5) DELAIS DE LIVRAISON

Les délais de livraison spécifiés éventuellement par le Vendeur sont toujours purement indicatifs et ne pourront en aucun cas être considérés comme décisifs. Le Vendeur se réserve le droit d'effacer, suspendre ou retarder, complètement ou partiellement, n'importe quelle commande pour des exigences ou des problèmes de production ou de livraison du Vendeur, pour des raisons de force majeure ou pour tout autre événement indépendant de la volonté du Vendeur. Le Vendeur se réserve aussi le droit de cesser la production de Produits particuliers pour des exigences ou des problèmes de production ou de marché. L’Acheteur renonce à toute revendication pour annulation de commandes ou retards de livraison, y compris et sans limitations, des dédommagement pour dommages directs, indirects, accidentels, conséquents ou tout autre dommage ou compensation. Dans le seul cas où ces retards dépassent 60 jours, l’Acheteur aura la faculté de résilier le contrat, en notifiant par écrit au Vendeur son intention, mais sans que cela lui donne le droit à prétendre à un dédommagement quelconque en sa faveur.

6) RISQUE DE PERTE

Indépendamment de toute autre condition de vente qui pourrait être indiquée et du fait que les frais d’expédition et de transport soient payées par le Vendeur, tous les risques de la perte ou de dommages aux Produits seront à la charge de l’Acheteur au moment de la remise des Produits de la part du vendeur à une société de transport. L’Acheteur ne pourra s’adresser qu’à la société de transport pour toute revendication pour perte ou dommages.

7) PACTE DE PROPRIETE RESERVEE

Tant que le Vendeur n’aura pas obtenu de l’Acheteur le paiement total des Produits, les Produits demeurent la propriété du Vendeur conformément à l’article 1523 du Code Civile Italien.

8) MODALITES DE PAIEMENT

L’Acheteur effectuera le paiement auprès du siège social du Vendeur à Fiorano Modenese, Modena, Italie, dans les délais établis dans le contrat. Pour aucun motif l’Acheteur ne pourra retarder on suspendre le paiement, indépendamment de toute revendication, y compris et sans limitation, toute revendication pour des prétendus défauts, carences ou irrégularités des produits, sauf la faculté de réclamer les sommes qu’il aurait indûment payé après en avoir apporté les preuves. L’acceptation par le Vendeur d’un titre de paiement (chèque, traite ou autre) s’effectuera sous réserve de bonne fin et ne constituera un paiement que lorsque le Vendeur en aura encaissé le montant entier comptant. En cas de retard de paiement, même partiel, le vendeur a la faculté de suspendre les livraison et pourra, au choix, exiger le paiement immédiat de toutes les sommes dues par l’Acheteur ou prétendre à des garanties adéquates pour le paiement. Il pourra aussi considérer le contrat comme résilié. En cas de retard de paiement, l’Acheteur devra payer au Vendeur les intérêts sur la somme non payée, de la date d’échéance à la date de paiement effectif, à un taux de 5% supérieur au Taux Officiel de la Banque d'Italie pendant cette période ou au taux maximal admis par la loi, s’il est inférieur. Indépendamment de tout accord différent concernant les paiements ou les conditions de crédit, le Vendeur pourra, selon sa propre discrétion et à tout moment, demander le paiement comptant avant l’expédition partielle ou complète des Produits. Si le Vendeur pense que l’Acheteur ne pourra pas effectuer les paiements dus sur la base du contrat, le Vendeur peut, selon sa propre discrétion, considérer le contrat comme résilié.

L’Acheteur a l’obligation de payer les Produits déjà expédiés. Si le Vendeur est obligé d’entreprendre des procédures pour encaisser des sommes dues par l’Acheteur, ou pour faire valoir tout droit dérivant du contrat, y compris le pacte de propriété réservée, l’Acheteur devra rembourser au Vendeur tous les frais et honoraires de contentieux.

9) GARANTIE

Sauf ce qui est expressément garanti par écrit, le Vendeur ne concède aucune garantie, expresse ou implicite sur les produits, y compris et sans limitation, toute garantie de commercialisation ou d’adaptabilité à un objectif précis. En outre, toute garantie écrite faite par le Vendeur à l’Acheteur ne s’applique pas sur des produits de deuxième ou de troisième choix ou de stocks, mais cette condition est limitée exclusivement aux produits en Première choix et avec une tolérance du 5%. Au moment de la réception des Produits, l’Acheteur doit les soumettre à un contrôle approfondi, en ouvrant les boîtes. L’Acheteur assume sa pleine et entière responsabilité pour vérifier si les produits sont conformes à ceux commandés et adaptés à l’usage que l’Acheteur veut en faire, indépendamment de toute suggestion ou instruction donnée par le Vendeur sur les Produits et leur usage. En aucun cas, le Vendeur ne pourra donner ou il ne sera considéré comme avoir donné, aucune garantie, expresse ou implicite, sur la correspondance ou l’uniformité ou à un tout autre aspect de la couleur, tonalité ou nuance des Produits, ou sur la conformité des Produits à la couleur, tonalité ou nuance d’un échantillon quelconque. L’Acheteur reconnaît que les changements de couleur, tonalité et nuance sont des caractéristiques des produits et leur sont intrinsèques et inévitables, et que les échantillons du vendeur sont seulement indicatifs par rapport aux Produits. En aucun cas, le Vendeur ne pourra donner, ou ne considérera avoir donné, aucune garantie, expresse ou implicite, sur des déclarations, descriptions ou illustrations contenues dans n’importe quel opuscule ou documentation.

10) RECLAMATIONS

Toute réclamation ou contestation de toute nature de l’Acheteur, y compris et sans limitation, les réclamations sur les défauts des Produits, doit s’effectuer par écrit, par lettre recommandée avec accusé de réception adressée au siège social du Vendeur à Fiorano Modenese, Modena, Italie, dans un délai de 8 jours après la date de réception des Produits contestés et dans tous les cas, avant leur installation. L’absence de réclamation selon les modalités indiquées ci- dessus constitue pour l’Acheteur une acceptation irrévocable des Produits et la reconnaissance que les Produits correspondent complètement aux spécifications du contrat. L’Acheteur ayant présenté une réclamation selon les modalités indiquées ci-dessus devra tenir à la disposition du Vendeur tous les Produits contestés en vue d’un contrôle. Dans tous le cas, l’Acheteur ne pourra retourner les Produits intéressés sans une autorisation préalable et écrite du Vendeur. En cas de reconnaissance des défauts, le Vendeur pourra, au choix, remplacer les Produits contestés ou annuler ou résilier, partiellement ou complètement le contrat, sans l’obligation de remplacer les Produits. L’Acheteur renonce à toute autre revendication, y compris et sans limitation, des dédommagements pour dommages directs, indirects, accidentels, consécutifs à d’autres dommages ou tout autre dommage ou compensation ainsi qu’au droit d’annuler ou de résilier le contrat.

13) MODIFICATIONS

Pour être valable, toute modification au contrat doit être effectuée par écrit et signée auprès du siège social du Vendeur à Fiorano Modenese, Modena, Italie, par un représentant dument autorisé à signer pour le compte du Vendeur.

ОБЩИЕ УСЛОВИЯ ПРОДАЖИ

1) ПРИНЯТИЕ ПОКУПАТЕЛЕМ ОБЩИХ УСЛОВИЙ ПРОДАЖИ

Эти Общие Условия Продажи будут применяться к любому контракту Ceramiche Settecento Valtresinaro S.p.A. („Продавец“) по продаже товара („Продукция“) любому лицу, которое купило или согласилось купить Продукцию Продавца („Покупатель“), если Продавцом не было предусмотрено иное в письменной форме. Размещая заказ на Продукцию, Покупатель принимает эти Общие Условия Продажи.

Любые другие условия, которые могут быть в любое время указаны Покупателем, в виде заказа или в любой другой форме, не будут действительны и не вступят в силу, даже если Продавцом не будет ясно выражено несогласие по этому поводу.

2) ПРИНЯТИЕ И ПОДТВЕРЖДЕНИЕ ЗАКАЗА

Все заказы Покупателя, полученные через агента Продавца или иным способом, должны быть одобрены Продавцом.

Никакой заказ Покупателя не будет считаться обязующим для Продавца, если не принят Продавцом в письменной форме, в головном офисе Продавца в Фиорано Моденезе (Мо) с должным Подтверждением Заказа, которое должно быть подписано работником торгового отдела, уполномоченным подписывать от имени Продавца, и с учетом ограничений, установленных в данном Подтверждении Заказа.

Любой заказ Покупателя будет считаться обязующим для Покупателя, если не будет отвержен Продавцом в письменной форме.

3) ЦЕНЫ

Если Продавцом в письменной форме не установлено ничто другое, Покупатель обязуется заплатить Продавцу за Продукцию по действующим в момент отправки ценам.

Цены подразумеваются на условиях франко-завод, не включая экспедиционные и транспортировочные расходы, налоги, таможенные пошлины и любые другие расходы.

По усмотрению Продавца, после принятия заказа со стороны Продавца, цены могут быть повышены в ответ на повышение расходов на сырье, рабочую силу, топливо и т.д.

Если повышение цен превосходит 20%, Покупатель имеет право отказаться от контракта, извещая Продавца о своем решении в письменной форме в течение максимум 10 дней с момента получения извещения о повышении цен, исключая любое требование или претензию о возмещении убытков.

4) СКИДКИ И БОНУСЫ

Если Продавцом в письменной форме не установлено ничто другое, Покупатель не имеет право на скидки или какие-либо бонусы.

Никакой агент Продавца не имеет право предоставлять скидки или бонусы от имени Продавца.

5) СРОКИ ПОСТАВКИ

УказанныеПродавцомсрокипоставкиявляютсяприблизительными и ни в коем случае не могут считаться окончательными.

Покупатель обладает правом отменить, отложить или задержать любой заказ (полностью или частично) в случае необходимости или проблем при производстве или поставке Продавцом, форс-мажорных обстоятельств или любой другой ситуации, находящейся вне контроля Продавца.

Продавец также обладает правом прекратить производство определенной Продукции в случае необходимости или производственных либо рыночных проблем.

Покупатель отказывается от любого вида претензий в случае отмены заказов или задержек при поставке Продукции, включая все без исключения претензии на прямые, косвенные, случайные, вытекающие или другие убытки либо компенсации. Только если такие задержки превышают 60 дней, Покупатель имеет право отказаться от контракта, извещая Продавца о своем решении в письменной форме, исключая любое требование или претензию о возмещении убытков.

6) РИСК ПОТЕРИ

Независимо от любых других условий продажи, которые могут быть указаны или от того, оплачивает Покупатель экспедиционные и транспортные расходы или нет, любой риск потери или причиненного Продукции ущерба переходит на Покупателя в момент передачи Продукции от Продавца грузоперевозчику, и любое требование о возмещении ущерба, нанесенного Продукции, или ее потери, может быть предъявлено только грузоперевозчику.

7) УДЕРЖАНИЕ ПРАВА СОБСТВЕННОСТИ

Пока Продавец не получит от Покупателя полную оплату за Продукцию, Продавец сохраняет право собственности на Продукцию, как предусмотрено статьей 1523 Итальянского Гражданского Кодекса.

8) УСЛОВИЯ ОПЛАТЫ

Покупатель должен произвести оплату в головном офисе Продавца в Фиорано Моденезе (Мо) в течение установленного по

контракту срока.

Ни по какой причине Покупатель не может задержать или отложить оплату, независимо от любой претензии, включая без исключения любую рекламацию на инкриминируемый ущерб, недостатки или нарушения в Продукции.

Принятие Продавцом любого чека, тратты, векселя или другого способа оплаты не заменяет оплату до тех пор, пока Продавец не получит наличными полную сумму. В случае любой задержки в оплате, даже частичной, Продавец имеет право отложить поставку и может, по своему усмотрению, потребовать от Покупателя немедленную оплату причитающейся суммы, попросить предоставить гарантию платежа или расторгнуть договор.

В случае задержки в оплате Покупатель должен будет оплатить Продавцу процент с неоплаченной суммы, с момента истечения срока до эффективной оплаты, на 5% больше Официальной Процентной Ставки Банка Италии в тот момент или, если ниже, максимальную процентную ставку, допустимую законом.

Независимо от любого другого соглашения относительно оплаты или условий кредитования, Продавец может в любой момент по своему усмотрению попросить оплату наличными до полной или частичной отправки Продукции.

Если Продавец считает, что Покупатель не в состоянии произвести оплату по контракту, то Продавец по своему усмотрению может расторгнуть контракт при условии, что Покупатель обязуется оплатить уже отправленную Продукцию.

Если Продавец должен предпринимать процедуры по получении любой причитающейся суммы от Покупателя или по отстаиванию любого права по контракту, включая удержание права собственности, то Покупатель должен будет возместить Продавцу все расходы и издержки, связанные с судебным разбирательством.

9) ГАРАНТИИ

Если в письменной форме не гарантировано ничто другое, Продавец не предоставляет подразумеваемую гарантию или гарантию соответствия относительно Продукции, включая без исключения любую гарантию товарности или пригодности для определенной цели.

Любая письменная гарантия, сделанная Продавцом Покупателю, не относится к Продукции второго либо третьего сорта или к товару на складе, но лишь к Продукции высшего сорта и с возможным отклонением ориентировочно в 5%.

При получении Продукции Покупатель должен провести ее тщательный контроль путем открытия ящиков. Покупатель берет на себя полную ответственность по проверке соответствия Продукции с заказанным товаром, и подходит ли Продукция для задуманного Покупателем использования, независимо от любых предоставленных Продавцом указаний или инструкций относительно Продукции и ее использования.

Ни в коем случае Продавец не может предоставить подразумеваемую гарантию или гарантию соответствия относительно сходства, равномерности или любой другой характеристики цвета, тональности или оттенка Продукции, или относительно соответствия Продукции с цветом, тональностью илиоттенкомлюбогообразца.Покупательпризнает, что изменения в цвете, тональности или оттенке являются свойственной и обязательной особенностью Продукции, и что образцы Продавца являются приблизительным сравнением с Продукцией.

Ни в коем случае Продавец не может предоставить подразумеваемую гарантию или гарантию соответствия относительно заявлений, описаний или иллюстраций, содержащихся в любой брошюре или документации.

10) ПРЕТЕНЗИИ

Любая претензия или рекламация любого вида со стороны Покупателя, включая все без исключения претензии по поводу дефектов товара, должна быть ясно выражена и предъявлена в письменной форме через заказное письмо с уведомлением о вручении, которое должно быть отправлено в головной офис Продавца в Фиорано Моденезе (Мо) в течение не более 8 дней с даты получения Продукции с уведомлением и, в любом случае, до монтажа.

Непредъявленная претензия вышеприведенным способом в течение указанного срока несет за собой окончательное принятие Продукции со стороны Покупателя и согласие с полным соответствием Продукции условиям контракта.

Покупатель, который предъявил претензию вышеприведенным способом в течение указанного срока, должен обеспечить Продавцу возможность проведения проверок непринятого товара.

Если будет установлен дефект, Продавец может по своему усмотрению заменить непринятую Продукцию или полностью либо частично расторгнуть контракт без обязательства замены

Продукции.

Покупатель отказывается от любого вида претензий, включая все без исключения претензии на прямые, косвенные, случайные, вытекающие или другие убытки либо компенсации и от права расторгнуть контракт.

11) ПРИМЕНИМОЕ ЗАКОНОДАТЕЛЬСТВО

Контракт должен соответствовать законодательству Итальянской Республики.

12) КОМПЕТЕНТНЫЙ РЕГИОНАЛЬНЫЙ ОРГАН

Разрешение любых разногласий, которые могут возникнуть между Ceramiche Settecento Valtresinaro S.p.A. и Покупателем относительно срока действия, толкования положений, исполнения и расторжения контрактов, регулируемых настоящими условиями, будет передано компетентному региональному органу, суду Модена.

13) ПОПРАВКИ

Любая поправка к контракту будет считаться действительной, если будет одобрена в письменной форме и подписана в головном офисе Продавца в Фиорано Моденезе (Мо) работником торгового отдела, уполномоченного подписывать от имени Продавца.

NOTE SULLA PULIZIA E LA POSA

LAPPATURA

(*Accademia, Evoque, V-Stone, Square, Bistrot, Zero.6*)

Per i prodotti lappati si raccomanda una pulizia immediata ed efficiente dopo la stuccatura usando detergenti acidi diluiti come da istruzioni del produttore da testare preventivamente su una piccola porzione.

SPOLVERO

(*Boudoir, Dunes, F 1 Design, Park Avenue & Place Vendome, Regent Street, Samarcanda, The Club, The Factory, V-Stone, Visionnaire*)

Per i decori metallizzati è da considerarsi l'effetto “spolvero”. Alcune microparticelle delle metallescenze potrebbero essere non completamente fuse alla superficie.

Le prime pulizie potrebbero quindi rilasciare alcune microparticelle metallizzate. Questo non compromette la natura del decoro.

VETRO IRREGOLARE/MOSAICO

(*Musiva, The Wall, Ermitage, Visionnaire*)

A seguito della speciale manifattura artigianale la superficie vetrosa ed il colore dei mosaici non sono mai perfettamente uniformi ed omogenei. Le piccole scalfitture od imperfezioni presenti su qualche tessera sono volutamente presenti e fanno parte della caratteristica del prodotto.

CRAQUELEE

(*The Traditional Style*)

Non sporcare la superficie delle piastrelle con materiali solidi o liquidi (es. pennarelli, inchiostro,...) poiché le macchie potrebbero penetrare in profondità. Dopo la posa, prima di procedere alla stuccatura: attendere un giorno o due per stabilizzare al meglio il craquélé e sottoporre il materiale ad un trattamento protettivo con un prodotto OLEOIDROPELLENTE (tipo FILA ES82), lasciandolo agire per diverse ore. Consigliamo il taglio a secco per ragioni di pulizia. E' comunque raccomandata una pulizia immediata e efficiente se si taglia ad acqua. Contestazioni dovute alla mancanza di attenzione durante la posa non possono essere accettate. Per pulizia usare detergenti neutri, non acidi (tipo FILACLEANER) o alcool etilico.

METALLIZZAZIONI

(*Boudoir, Dunes, The Club, The Factory, Terrae, Vintage, Vintage97, V-Stone, Visionnaire, Musiva, Brickart*)

La manifattura di questo prodotto è stata realizzata con procedimenti artigianali e non industriali. Piccole imperfezioni, avvallamenti ed increspature della superficie sono volutamente presenti costituendone specifica caratteristica del prodotto e ne testimoniano la speciale manifattura artigianale. Il fondo metallizzato, per la particolarità della lavorazione e degli smalti impiegati, può avere un effetto di forte stonalizzazione e ossidazione, caratteristica del prodotto; per la sua pulizia comportarsi come per una normale superficie in vetro usando alcool e carta. Avvertenza: per la pulizia utilizzare detergenti non aggressivi (no acidi).

CLEANING AND FIXING INFORMATION

SEMIPOLISHING

(*Accademia, Evoque, V-Stone, Square, Bistrot, Zero.6*)

Polished items: after grouting is recommended an immediate and efficient cleaning. Acid detergents, diluted following manufacturer prescriptions, should be used; before using them, test the cleanser on a little area.

GLAZE'S MICROPARTICLES

(*Boudoir, Dunes, F 1 Design, Park Avenue & Place Vendome, Regent Street, Samarcanda, The Club, The Factory, V-Stone, Visionnaire*)

On the 3rd firing metallic decors some metal microparticles might not be fully fused to the surface. During the first cleanings some particles might be removed from the surface but this is considered a feature of the metallic decor and it doesn't compromise the characteristics of the product.

IRREGULAR GLASS/MOSAIC

(*Musiva, The Wall, Ermitage, Visionnaire*)

Due to the special “hand made” manufacturing process, the glass surface and the colour of the mosaic are never perfectly uniform and homogeneous. Small chips or imperfections on some surfaces are deliberately present and they are a feature of the products.

CRACKLE

(*The Traditional Style*)

Care should be taken when fixing this material. Don't use anything on the surface of the tiles (marker, ink, etc...) because the stains penetrate the surface of the tiles. After the fixing before grouting: wait for 1 or 2 days for setting up the “crackle glaze” and use a sealing (anti oils and anti water ie: FILA ES82) product. For a better cleaning we advise dry cut, should be a “water” cut anyway used, we highly recommend to clean the surface immediately. Complaints due to a layout careless or fixing mistakes will not be accepted at all. Cleaning instructions: use neutral detergent, not acid (ie: FILACLEANER) or ethyl alcohol.

METAL SURFACES

(*Boudoir, Dunes, The Club, The Factory, Terrae, Vintage, Vintage97, V-Stone, Visionnaire, Musiva, Brickart*)

Manufacturing of this product has been realized with hand crafted procedures and not industrial. Small imperfections, subsidence and ripples of the surface are deliberately present and they are a feature of the product, proving the hand-made manufacturing procedure. The metal effects on the surface may eventually oxidize: ordinary cleaning shall then be done with detergents normal used for glass or with alcohol and paper. Warning: Use non aggressive (no acids) detergents when cleaning.

HINWEISE ZUR PFLEGE UND VERLEGUNG

ANGESCHLIFFEN

(*Accademia, Evoque, V-Stone, Square, Bistrot, Zero.6*)

Bei anpolierten Produkten empfiehlt sich eine sofortige und effiziente Reinigung nach der Verfugung unter Verwendung von verduennten sauren Reinigern und nach den Anweisungen des jeweiligen Herstellers, zunaechst vorsorglich auf einer kleinen Teilflaeche.

METALLSTAUB

(*Boudoir, Dunes, F 1 Design, Park Avenue & Place Vendome, Regent Street, Samarcanda, The Club, The Factory, V-Stone, Visionnaire*)

Bei den metallenen Dekoren ist der Pulvereffekt zu beruecksichtigen. Bei der Glasur werden mitunter Teile des aufgetragenen Metallpulvers nicht vollstaendig geschmolzen, da die Saettigungsgrenze ueberschritten wurde. Deshalb koennen diese uebrigbleibenden Anteile beim Reinigen geloest werden, was allerdings weder die Beschaffenheit des Dekors beeintraechtigt noch dessen Qualitaet kompromittiert.

UNREGELMAESSIGKEITEN DER GLASOBERFLAECHE/MOSAIK

(*Musiva, The Wall, Ermitage, Visionnaire*)

Infolge der besonderen handwerklichen Bearbeitung der Glasoberflaeche ist diese nicht immer gleichmaessig und einheitlich. Diese Unregelmaessigkeiten, die Tonalitaeten sowie leichten Splitterungen im Kantenbereich der Tozzetti sind ein Charakteristikum des Produktes.

KRAKELEN

(*The Traditional Style*)

Achtung! Beachten Sie folgende Hinweise zur Verlegung!

Sorgen Sie dafuer, dass die Oberflaeche der Fliesen nicht mit festen oder fluessigen Materialien wie Markern, Tinte, etc. in Beruehrung kommt, damit keine Flecken in diese eindringen koennen. Nach der Verlegung (Kleben) aber vor der Verfugung sollten Sie: ein oder zwei Tage vergehen lassen, damit sich die „Krakelée“ stabilisieren kann und die Fliesen zum Schutz vor Verschmutzung mit einer wasserabweisenden Loesung (Parafin oder Aehnlichem FILA ES82) behandeln und anschliessend einige Stunden wirken lassen. Ausserdem empfehlen wie aus sauberkeitstechnischen Gruenden das Trockensschneiden. Beim evtl. Nassschneiden ist unverzueglich und grendlich zu reinigen. Wir weisen ausdruecklich sarauf hin, dass Reklamationen nicht akzeptiert werdwn koennen, wenn die o.a. Hinweise bei der Verlegung nicht beruecksichtigt wurden! Zur reinigung nur ph-neutrale Mittel benutzen, (Z.B FILA – CLEANER) keinestarksaurenprodukte oder verduennten Alkohse.

METALLISCHE OBERFLAECHEN

(*Boudoir, Dunes, The Club, The Factory, Terrae, Vintage, Vintage97, V-Stone, Visionnaire, Musiva, Brickart*)

Die Herstellung dieses Produktes erfolgt ueber handwerkliche Verfahrensweisen und keine industriellen. Kleine Unregelmaessigkeiten und Unebenheiten der Oberflaechen sind bewusst vorhandene Charakteristiken des Produktes und bezeugen eben seine speziell handwerkliche Herkunft. Fliesen mit metallener Optik koennen aufgrund Ihrer besonderen Anfertigung sowie der verwendeten Glasuren eine sichtbare Farbaenderung und Oxidation erfahren, die charakteristisch sind fuer diese Art von Produkten. Zur Reinigung wird empfohlen, sich wie bei einer Glasflaeche zu verhalten: indem man Alkohol und Papier benutzt. In jedem Fall duerfen keine aggressiven (saeurehaltigen) Mittel verwendet werden und der Gebrauch von kratzenden Gegenstaenden ist zu vermeiden.

INFORMATION POUR LA POSE E LE NETTOYAGE

SEMI POLI

(*Accademia, Evoque, V-Stone, Square, Bistrot, Zero.6*)

Pour les produits "lappati", il est recommandé un nettoyage efficace immédiatement après le jointoiement, en utilisant des détergents acides dilués conformément aux instructions des produits. Un test préalable sur une petite surface c'est recommandé.

MICROPARTICULES METALLIQUES

(*Boudoir, Dunes, F 1 Design, Park Avenue & Place Vendome, Regent Street, Samarcanda, The Club, The Factory, V-Stone, Visionnaire*)

Sur les 3èmes décors métalliques, quelques microparticules métalliques de l'effet moucheté pourraient ne pas être entièrement fusionnées à la surface. Lors des premiers nettoyages quelques particules pourraient être enlevées de la surface mais ceci est tout à fait normal pour ce genre de décor et il ne remet pas en question les caractéristiques du produit.

VERRE EBRECHÉ/MOSAÏQUE

(*Musiva, The Wall, Ermitage, Visionnaire*)

Le verre sur la surface est le résultat d'une production artisanale, il est à noter que: Les carreaux et la couleur de la mosaïque ne sont jamais parfaitement uniforme ni homogène. Les petites ébréchures et imperfections, présentes dans quelques carreaux, sont en fait des caractéristiques du produit.

CRAQUELÉE

(*The Traditional Style*)

Instructions pour la pose du produit:

- Ne pas altérer en surface les carreaux avec des matériaux solides ou liquides

(ex : crayon, encre...), sinon les marques peuvent pénétrer en profondeur.

Après la pose, avant de continuer le stucage: attendre un jour ou deux pour stabiliser au mieux le craquelage et appliquer sur le revêtement un traitement de protection avec un produit huile hydrofuge (FILA ES82) et le laisser agir pendant quelques heures. Pour un meilleur entretien des carreaux, nous vous conseillons de couper à la machine classique et non pas au disque à eau. Il est recommandé de nettoyer le plus rapidement possible le carreau après la pose. Nous n'accepterons aucun litige pour cause d'inattention et de négligence pendant les différentes phases de mise en œuvre. Pour nettoyer utiliser un détergent neutre, pas acid (p.e. FILACLEANER) ou du alcool éthylique.

SURFACES METALLIQUES

(*Boudoir, Dunes, The Club, The Factory, Terrae, Vintage, Vintage97, V-Stone, Visionnaire, Musiva, Brickart*)

Ce ci est le résultat de un produit artisanal. Il est à noter que : les petites imperfections, ébréchures, point émaillée, présent dans quelques carreaux, sont en fait témoignage d'une production pas-industrielle. La particularité de ces produits ce da son aspect métallisé. L'utilisation des émaux constitués de micro granule en métal, ce qui dote le produit d'un aspect similaire à celui des lames en métal et nous permet d'obtenir un résultat harmonieux, et nuancée (caractéristiques du produit).Pour l'entretien quotidien de la surface, il est conseillé d'utiliser détergents ordinaire qui se trouve dan le commerce pour le miroir ou le verre.

MISE EN GARDE: pour le nettoyage, il faut donc utiliser des produits doux,

(pas acides), vu que nous sommes devant un émaux métallisé.

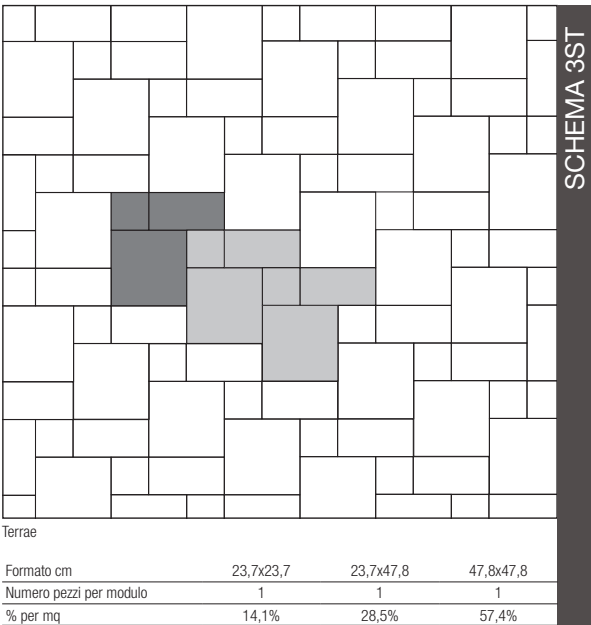

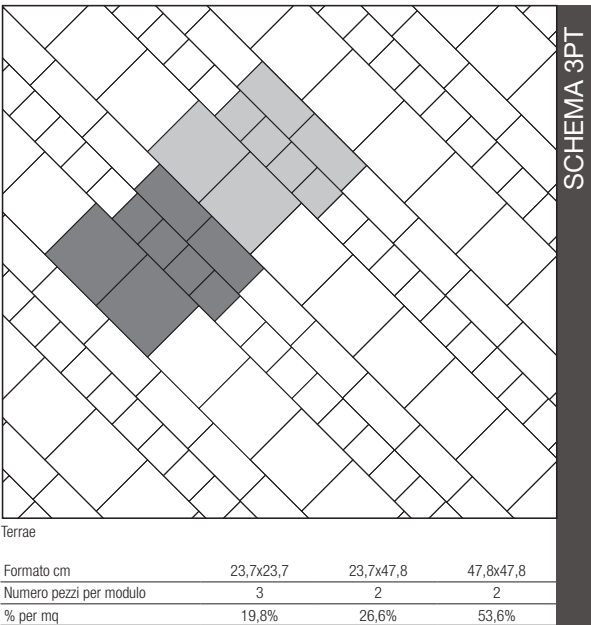

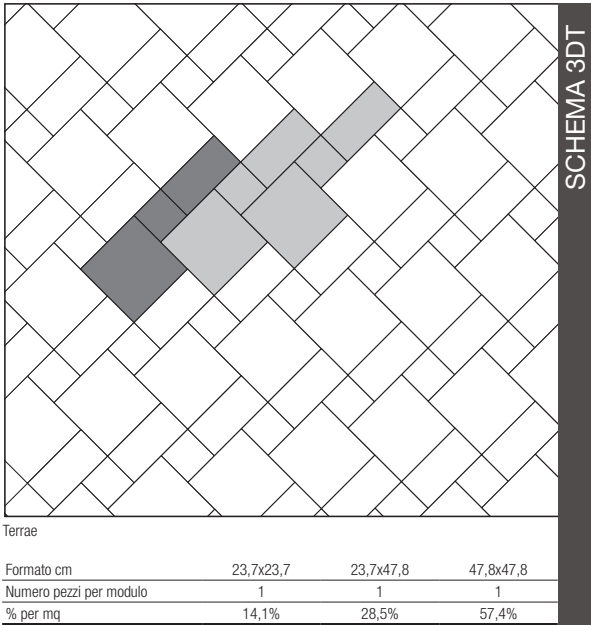

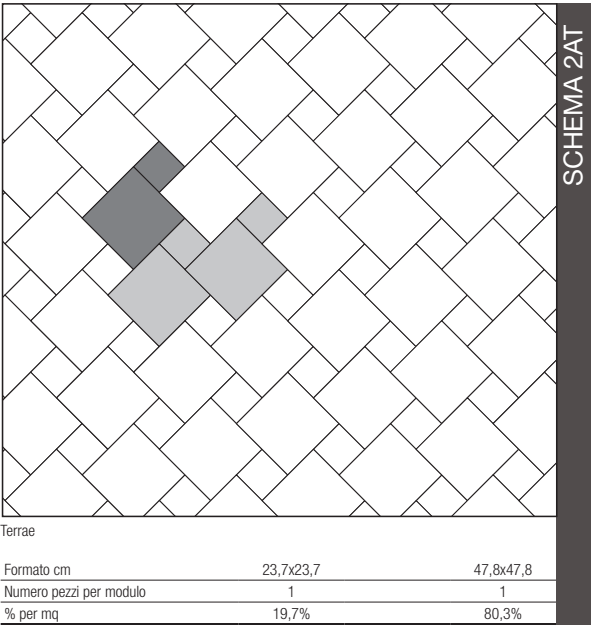

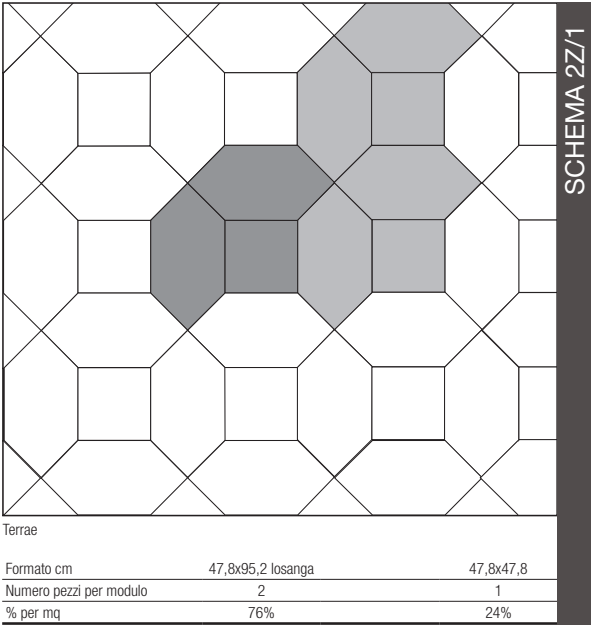

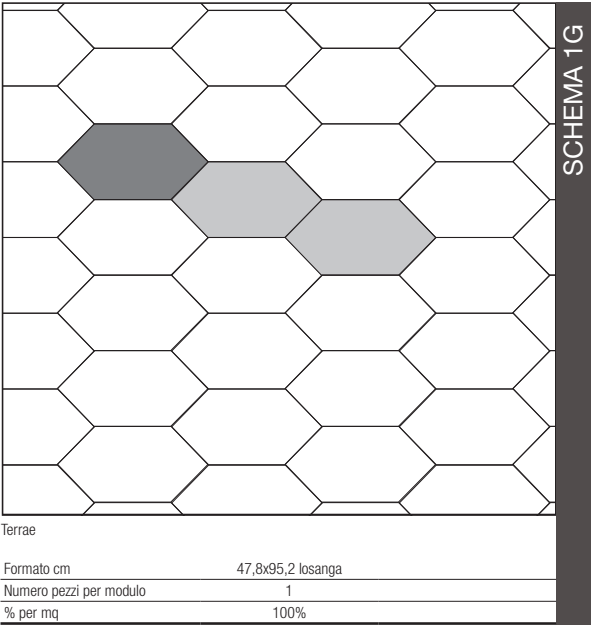

ЛАППАТИРОВАНИЕ
(*Accademia, Evoque, V-Stone, Square, Bistrot, Zero.6*)
После затирки ларратированных изделий рекомендуется немедленная и эффективная чистка разбавленными кислотными очистителями, в соответствии с инструкциями производителя и предварительно проверив на небольшом участке поверхности.

МЕТАЛИЗИРОВАННЫЕ НАПЛЕНИЯ
(*Boudoir, Dunes, F 1 Design, Park Avenue & Place Vendome, Regent Street, Samarcanda, The Club, The Factory, V-Stone, Visionnaire*)
Для металлизированных декоров следует учитывать эффект “напыления”. Некоторые маленькие частички блеска могут быть не до конца расплавлены на поверхности. Первичные чистки могут удалить незакрепленные на поверхности частицы. Это является характерной чертой металлизированных декоров и не компрометирует свойств изделия.

НЕРЕГУЛЯРНОСТЬ СТЕКЛЯННОЙ ПОВЕРХНОСТИ/ МОЗАИКА
(*Musiva, The Wall, Ermitage, Visionnaire*)
Вследствие особого ручного производственного процесса стеклянная поверхность и цвет мозаики никогда не являются абсолютно одинаковыми и идеально ровными. Маленькие царапины или другие присутствующие неточности на некоторых поверхностях намеренно присутствуют и являются частью характеристики продукта.

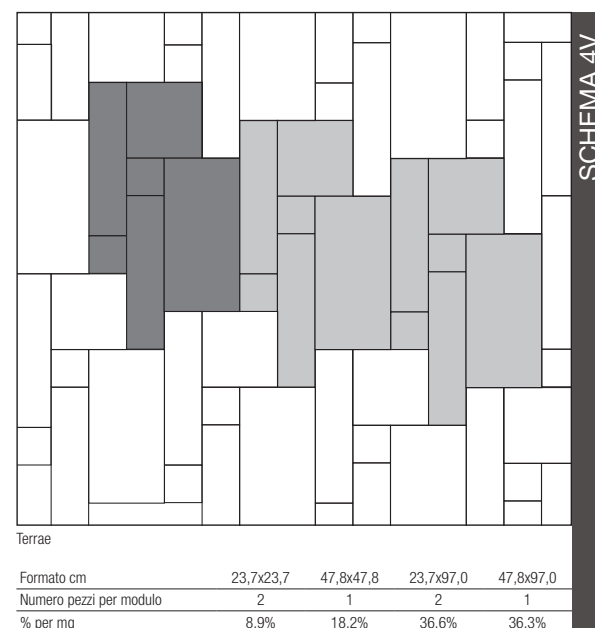

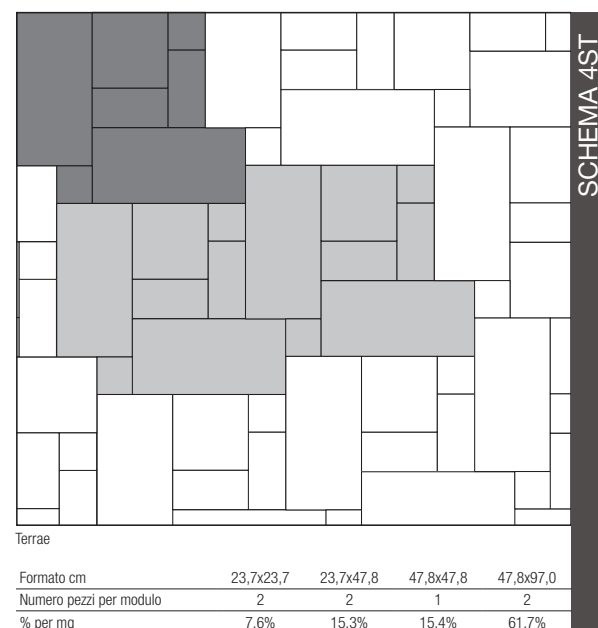

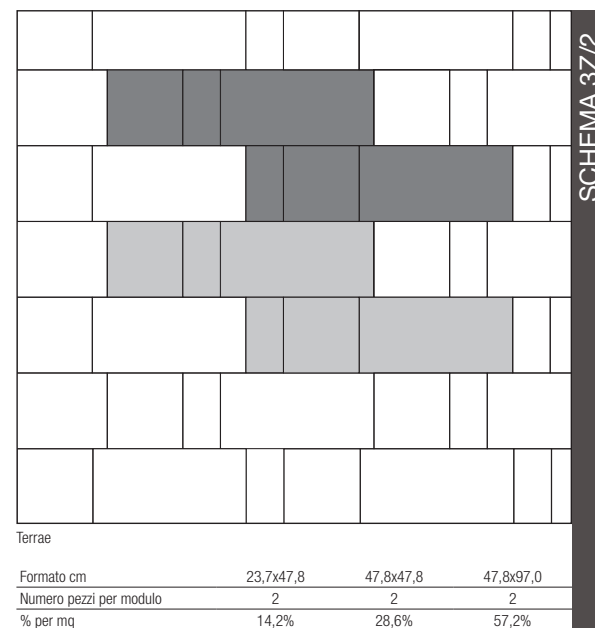

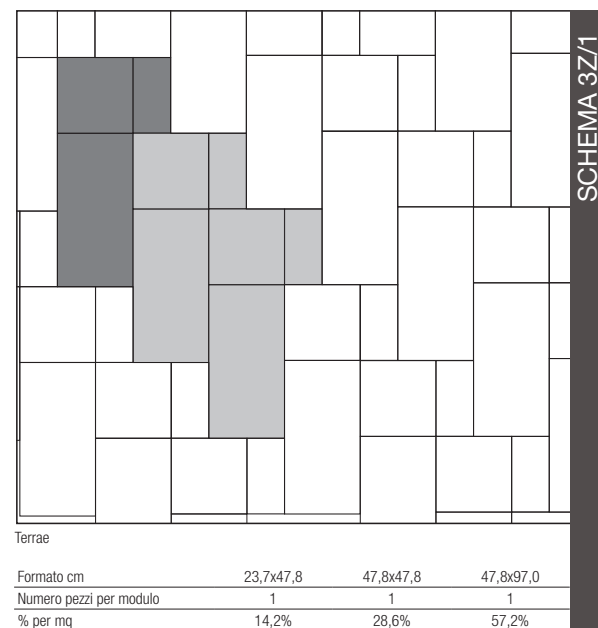

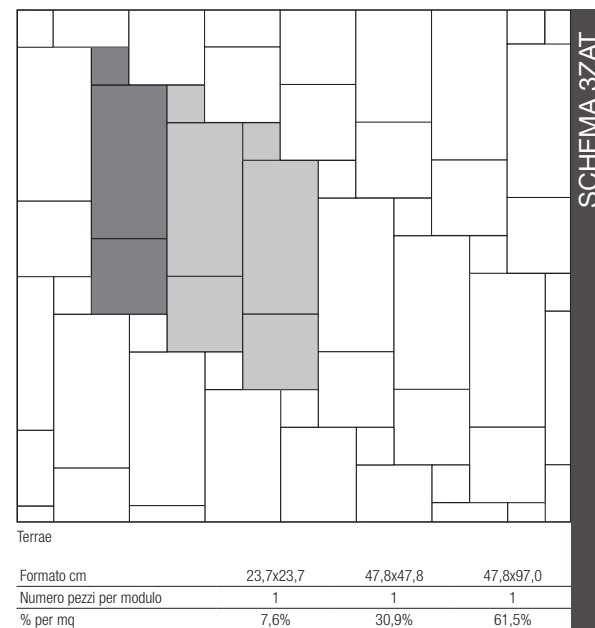

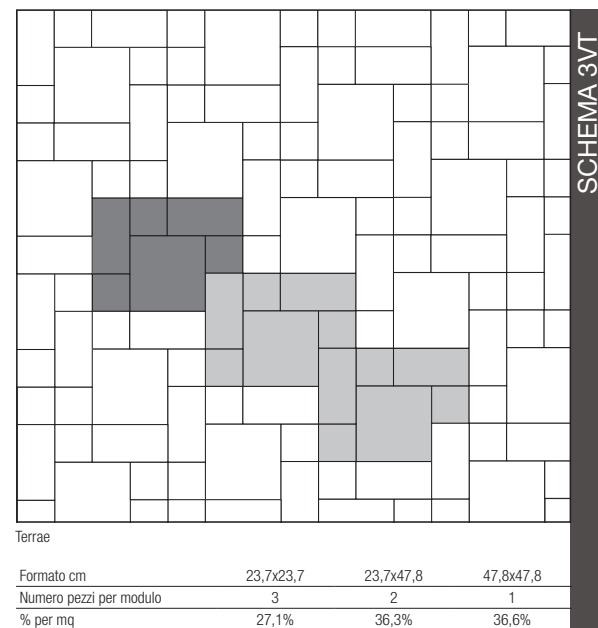

КРАКЕЛЮР
(*The Traditional Style*)
Инструкции по укладке. Не пачкать поверхность плитки, используя твердые или жидкие материалы (например фломастеры, чернила...), поскольку пятна могут проникать в глубину. После укладки, прежде чем начать оштукатуривание, следует: подождать один или несколько дней, чтобы стабилизировалось стекло „craquelé” подвергнуть изделие защитной обработке с помощью масло- и водоотталкивающего средства, оставляя действовать на несколько часов. Рекомендуем резку сухим способом из соображений чистоты. При гидрорезке рекомендуется немедленная и эффективная чистка. Претензии, вызванные недостатком внимания при укладке, не будут приняты. Для чистки использовать нейтральное чистящее средство (например FILACLEANER) или этиловый спирт.

МЕТАЛИЗИРОВАННЫЕ ПОВЕРХНОСТИ
(*Boudoir, Dunes, The Club, The Factory, Terrae, Vintage, Vintage97, V-Stone, Visionnaire, Musiva, Brickart*)
Производство этого продукта была выполнена ремесленным, а не промышленным способом. Маленькие неточности, впадины и складки поверхности намеренно присутствуют, являясь особой характеристикой продукта, и свидетельствуют об его ремесленном способе производства. Учитывая особенности обработки и используемую глазурь, металлизированный фон может представлять эффект окисления и изменения оттенка, что является особенностью изделия. Для его чистки следует использовать спирт и бумагу, как для нормальной поверхности из стекла.Внимание: для чистки пола использовать неагрессивные чистящие средства (некислотные), из-за наличия металлизированной глазури.
